July 7, 2020 (Source) – Jim Payne, President, CEO & Director of dynaCERT Inc. (TSX: DYA), and his team joined Berk Sumen, Head of TSX Company Services, to celebrate the company's graduation from TSX Venture Exchange to TSX and to open the market.

dynaCERT Inc. manufactures and distributes Carbon Emission Reduction Technology for use with internal combustion engines. As part of the growing global hydrogen economy, dynaCERT Inc.'s patented technology creates hydrogen and oxygen on-demand through a unique electrolysis system and supplies these gases through the air intake of combustion engines to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. The technology is designed for use with many types and sizes of diesel engines used in on-road vehicles, reefer trailers, off-road construction, power generation, mining and forestry equipment, marine vessels and railroad locomotives.
