InvestorTalk Alert: Jack Lifton to Host Christopher Drysdale of ReeXploration Inc. on Thursday, January 15, 2026

written by InvestorNews | January 14, 2026
InvestorNews.com is pleased to announce an upcoming InvestorTalk hosted by Jack Lifton, featuring **Christopher Drysdale, Interim CEO and Director, ReeXploration Inc. (TSXV: REE)**, scheduled for **tomorrow, Thursday, January 15, 2026, at 9:00 AM EST**. To participate in this engaging discussion, please click here

ReeXploration is a Canadian exploration company focused on supplying critical minerals essential to clean energy, advanced technologies, and national defense. Its flagship Eureka Project in central Namibia combines a proven rare earth foundation, including production of a clean monazite concentrate, with a newly identified high-priority uranium target in a well-established uranium corridor. This dual-commodity strategy offers multi-path discovery potential aligned with global efforts to diversify critical mineral and nuclear fuel supplies. Backed by a Namibia-based technical team and global experts, ReeXploration is advancing a disciplined, ESG-aligned exploration strategy positioned to support secure and responsible supply chains.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from ReeXploration for your review, which are listed below:

- January 14, 2026 – ReeXploration Announces Fully Funded

2026 Uranium Drill Program at Eureka, Namibia – click here
- December 23, 2025 – ReeXploration Announces Closing of $1,000,000 Private Placement – click here
- December 15, 2025 – ReeXploration Announces $1,000,000 Private Placement – click here
- December 12, 2025 – ReeXploration Announces Field Program Results Confirming Large-Scale Uranium Target at Eureka, Namibia – click here

We found the January 14th news release titled, "*ReeXploration Announces Fully Funded 2026 Uranium Drill Program at Eureka, Namibia*" particularly noteworthy and here are 5 key data points from it:

- **Fully Funded 2026 Uranium Drill Program** – ReeXploration Inc. has secured full funding and is advancing into execution for its 2026 uranium drill program at the flagship Eureka Project in Namibia.
- **Drill-Ready High-Priority Uranium Targets** – Multiple uranium targets defined in 2025 are now considered drill-ready, supported by coherent radiometric and geochemical anomalies consistent with large, intrusion-related uranium systems.
- **Eureka Positioned in a Premier Uranium District** – The uranium targets are located within one of the world's leading uranium provinces, significantly enhancing the strategic relevance of the Eureka Project.
- **$1.95M Raised in 2025 Financings** – ReeXploration completed two private placements in Fall 2025, raising $1.95 million, including $1.0 million in December, to fund near-term exploration and initiate uranium drilling.
- **Eureka Repositioned as a Dual-Commodity Project** – The 2025 program expanded Eureka beyond rare earth elements into a

rare earth–uranium dual-commodity critical minerals project, increasing discovery pathways and strategic value.
