

# Greg Fenton of Zentek on its new mask manufacturing agreement and US interest in its HVAC filters

written by InvestorNews | September 22, 2022

In this InvestorIntel interview, host Tracy Weslosky talks to [Zentek Ltd.](#)'s (NASDAQ: ZTEK | TSXV: ZEN) CEO and Director Greg Fenton about its new mask manufacturing and packaging agreement and interest generated from a successful promotional tour in the USA.

In the interview, which can also be viewed in full on the InvestorIntel YouTube channel ([click here to access InvestorChannel.com](#)), Greg discusses how Zentek has entered into an agreement with long-established Viva Healthcare Packaging (Canada) Ltd. to manufacture and sell surgical masks enhanced with Zentek's proprietary ZenGUARD antimicrobial coating. At the height of the pandemic Viva was producing over 20 million masks per month. "They're big and well established with an existing distribution network," Greg tells Tracy, "so it was absolutely a perfect partnership for us."

Greg also talks about his recent visit to Washington, D.C., that included 14 meetings with members of the U.S. Congress, to discuss indoor air quality and Zentek's ZenGUARD-coated HVAC filters. "We developed a lot of momentum there," he says. He also talks about ongoing testing of their HVAC filters in real world environments, like classrooms. "The simplicity and elegance of our solution is it's a passive solution that can be added to any existing system."

Finally, Greg also talks about Zentek's finances. "We did a significant capital raise at the beginning of this year and our treasury's in an excellent position," he tells Tracy, "but we're being very judicious in our spending."
