Safety Strips, Provides Corporate Update – [click here](#)

We found the most recent news release, titled *Safe Supply Commends U.S. Government for Historic New Legislation Mandating Drug Detection Kits, Announces Commercial Acceleration of Drink Spike*, particularly noteworthy:

1. **New Legislation in California:** As of July 1, 2024, bars and nightclubs in California must offer test kits for detecting date rape drugs. This law impacts approximately 2,400 establishments with a Type 48 license and remains in effect until January 1, 2027.
2. **Safety Strips' Market Readiness:** Safety Strips is the first company to achieve mass-scale readiness in California, positioning itself as a leader in providing drug detection kits under the new regulations.
3. **Commercial Acceleration of Drink Spike:** Safe Supply is accelerating production of Safety Strips' Drink Spike test strips to meet the anticipated demand surge from businesses required to comply with the new law.
4. **Investment and Market Opportunity:** The new legislation, alongside Safety Strips' strategic positioning, presents a significant investment opportunity, especially in trend-setting California. Safety Strips' technology has the potential for nationwide expansion.
5. **Strategic Partnership with Greenlane Holdings:** Safety Strips has secured a major distribution deal with **Greenlane Holdings, Inc.**, ensuring the widespread availability of Drink Spike test strips throughout California.
