Currently, Zentek holds 100,819,577 shares outstanding and has a market capitalization of CAD$153,245,758.

In preparation for tomorrow's InvestorTalk, here are the three most recent news releases from Zentek for your review, which are listed below:

- May 07, 2024 – Zentek Completes Case Study on HVAC Total Cost of Ownership Savings for the City of Toronto – click here
- May 06, 2024 – Zentek and Triera Biosciences Ltd. Achieve Positive Results Against Avian Influenza (H5N1) using Multivalent Aptamer Technology – click here
- May 03, 2024 – Zentek Announces Board and Management Changes – click here

5-Data Points from the most recent news release on May 07, 2024, titled, *Zentek Completes Case Study on HVAC Total Cost of Ownership Savings for the City of Toronto*:

- **Annual Cost Savings:** The City of Toronto could save over $40 million annually by switching from MERV 13 filters to MERV 9A filters. Savings come from reduced labor costs, lower expenditures on air filters, reduced energy requirements, and lower waste disposal costs.
- **Energy and Emission Reductions:** The switch to MERV 9A filters would result in reduced energy requirements and a decrease in carbon emissions by 3,029 tonnes of CO_2 equivalent, which is comparable to the amount absorbed by 49,976 newly planted tree seedlings growing for 10 years.
- **Waste Reduction:** The use of MERV 9A filters would reduce landfill waste by approximately 947 full dumpsters.
- **Product Assessment:** Zentek's ZenGUARD™ Enhanced Air Filter product, which aims to improve HVAC filter efficiency while reducing costs and emissions, is currently being assessed for registration under the Pest Control Products Act in Canada.
- **ZenGUARD™ Technology:** Zentek's patented ZenGUARD™ technology has 99% anti-microbial activity and aims to significantly increase viral filtration efficiency in HVAC systems, as it has done for surgical masks.
