Elcora Advanced Materials Prepares for Manganese Production in Morocco

written by InvestorNews | November 25, 2022

In this InvestorIntel interview, Tracy Weslosky secures an update on battery material and graphite technology company Elcora Advanced Materials Corp. (TSXV: ERA | OTCQB: ECORF). Starting with an update on the Atlas Fox Deposit, Founder, CEO and Director Troy Grant explains that as soon as the production license for this manganese project in Morocco is received production will begin immediately.

Explaining how manganese production may commence by the end of the year, Troy discusses the timeline as it relates to revenue for Elcora. Additional discussions include the general critical minerals market, and how the Company intends to use the recently closed private placement proceeds. Troy updates the InvestorIntel.com audience with a further update on the objective to initiate the ore production on the Vanadinite (Vanadium and Lead) concessions as soon as the Exploitation licenses have been granted.

About Elcora Advanced Materials Corp.

Elcora was founded in 2011 and has been structured to become a vertically integrated battery material company. Elcora can process, refine, and produce battery related minerals and

metals. As part of the vertical integration strategy Elcora has developed a cost-effective process to purify high-quality battery metals and minerals that are commercially scalable. This combination means that Elcora has the tools and resources for vertical integration of the battery minerals and metals industry.

This interview, which was produced by InvestorIntel Corp. (IIC) does not contain, nor does it purport to contain, a summary of all the material information concerning the "Company" being interviewed. IIC offers no representations or warranties that any of the information contained in this interview is accurate or complete.

This presentation may contain"forward-looking statements" within the meaning of applicable Canadian securities legislation. Forward-looking statements are based on the opinions and assumptions of the management of the Company as of the date made. They are inherently susceptible to uncertainty and other factors that could cause actual events/results to differ materially from these forward-looking statements. Additional risks and uncertainties, including those that the Company does not know about now or that it currently deems immaterial, may also adversely affect the Company's business or any investment therein.

Any projections given are principally intended for use as objectives and are not intended, and should not be taken, as assurances that the projected results will be obtained by the Company. The assumptions used may not prove to be accurate and a potential decline in the Company's financial condition or

results of operations may negatively impact the value of its securities. Prospective investors are urged to review the Company's profile on Sedar.com and to carry out independent investigations in order to determine their interest in investing in the Company.
