Greg Fenton on China's graphite export restrictions and Zentek's Albany graphite deposit in Ontario

written by InvestorNews | October 26, 2023

In a recent InvestorNews interview with host Tracy Weslosky, Zentek Ltd.'s (NASDAQ: ZTEK | TSXV: ZEN) CEO and Director, Greg Fenton, discussed China's recent move to restrict graphite exports and its potential impact on global supply chains and the electric vehicle (EV) industry.

Concerns about China's dominance in supplying critical minerals to the EV industry have prompted governments to identify this as a significant risk. Greg said that the recent restrictions on graphite exports highlight the importance of creating a North American battery supply chain. Greg underscored the potential for this situation to significantly alter the EV landscape. Foreseeing long-term growth, Greg discussed why electric vehicle manufacturers will need to diversify their supply chains away from China.

Greg believes these restrictions will shift the focus to North American graphite producers. Highlighting Zentek's Albany graphite deposit in Ontario, Canada, as a promising source of high-purity graphite, Greg emphasized the need for government and industry investments in North American graphite projects.
