InvestorTalk Alert: Ali Haji from American Tungsten Corp. to host on Wednesday, August 6, 2025

written by InvestorNews | August 5, 2025

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, August 6th, at 9:00 AM EST, featuring Ali Haji, CEO and Director, American Tungsten Corp. (CSE: TUNG | OTCQB: DEMRF). To participate in this engaging discussion, please click here

American Tungsten Corp. is a Canadian exploration company focused on high-potential tungsten and magnetite assets in North America. The Company is advancing the Ima Mine Project in Idaho to commercial production, addressing critical metal scarcity in North America. The Company's Ima Mine Project is a historic and high-quality underground tungsten past-producing property, where the Company holds an exclusive option to acquire full ownership (subject to a 2% royalty) and has expanded its land position with 113 additional federal claims covering nearly 2,000 acres.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from American Tungsten for your review, which are listed below:

- August 5, 2025 American Tungsten Strengthens Leadership
 Team to Drive Mining Operations Expansion <u>click here</u>
- July 30, 2025 American Tungsten Announces Strategic Advancements in IMA Mine Rehabilitation and Exploration Program – <u>click here</u>

- July 24, 2025 American Tungsten Corp. Announces Closing of Upsized \$7m Financing click here
- July 17, 2025 American Tungsten Corp. Announces Upsize in Private Placement from \$2.5 Million to \$7.0 Million— click here

Here are 5 key data points from their July 30th news release titled, "American Tungsten Announces Strategic Advancements in IMA Mine Rehabilitation and Exploration Program":

- IMA Mine Rehabilitation: Rehabilitation started with site remediation, focusing initially on the zero-level drift to evaluate underground infrastructure conditions and drill station accessibility.
- Exploration and Drilling Program: Over 6,000 feet of underground diamond drilling planned in Q3-2025 to expand tungsten resources and assess potential molybdenum targets.
- Strategic Partnerships: Pursuing partnerships and non-dilutive funding from the U.S. Department of Defense and U.S. Department of Energy.
- Corporate Milestone: Received conditional approval to list shares on the TSX Venture Exchange, marking significant corporate growth.
- **Historical Production:** Historically, the IMA Mine produced approximately 199,449 metric ton units of tungsten trioxide (WO₃) between 1945 and 1957.
