

# InvestorTalk Alert: Bo Møller Stensgaard from Greenland Mines Ltd. to host on Tuesday, April 7, 2026, at 9:00 AM EST

written by InvestorNews | April 6, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, **Tuesday, April 7, 2026, at 9:00 AM EST**, featuring **Bo Møller Stensgaard, Ph.D., President, [Greenland Mines Ltd.](#)** (NASDAQ: GRML). To participate in this engaging discussion, please email [tracy@investornew.com](mailto:tracy@investornew.com) to **RSVP**.

Greenland Mines Ltd is a Nasdaq-listed company with two operating divisions: (1) Natural Resources, focused on the exploration and development of the Skaergaard Project in Southeast Greenland, one of the largest undeveloped palladium, gold, and platinum deposits in the world; and 2) Cell and Gene Therapy, including Klotho's KLT0-202 primary indication for ALS. The Company holds, through its recent acquisition of Greenland Mines Corp., an 80% interest in, and option to acquire the remaining 20% of, the Skaergaard Project, which hosts a 2022 NI 43-101 Indicated and Inferred Mineral Resource of 25.4 Moz PdEq and 23.5 Moz AuEq with a gross undiscounted in-situ resource value of approximately \$68 billion based on February 2026 metal prices. The Company is led by an experienced team of mining, geological, biotech, and capital markets professionals.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Greenland Mines for your review, which are listed below:

- April 2, 2026 – Greenland Mines Subsidiary Major Precious Greenland A/S Joins Greenland Business Association – [click here](#)
- March 25, 2026 – Greenland Mines Secures Icebreaker Argus For 2026 Skaergaard Field Program – [click here](#)
- March 23, 2026 – Greenland Mines Secures Additional 180-Day Period for Nasdaq Bid Price Compliance – [click here](#)
- March 19, 2026 – Greenland Mines Engages WSP Denmark to Launch Comprehensive Environmental Baseline Program at Skaergaard Mining Site – [click here](#)

We found the March 25<sup>th</sup> news release titled, “*Greenland Mines Secures Icebreaker Argus For 2026 Skaergaard Field Program*” particularly noteworthy and here are 5 key data points from it:

- **Icebreaker Secured Enhancing Arctic Operations** – Greenland Mines Ltd. chartered the M/V Argus icebreaker to support its 2026 Skaergaard field program, providing transport of supplies, equipment, and personnel, along with accommodation, helideck access, and acting as a primary offshore logistics hub for integrated field operations.
- **Rare Arctic-Capable Vessel Secured** – M/V Argus is an Iceclass A1 Super vessel with Polar Code compliance, offering specialized Arctic capabilities, limited regional availability, and suitability for operations in Greenland’s challenging fjord environments.
- **Experienced Arctic Logistics Partner** – IceTugs and the Argus crew bring extensive experience operating in East Greenland, supporting safe navigation, cargo handling, and field execution under harsh Arctic conditions.
- **Improved Efficiency and Safety** – Using a single, well-equipped Arctic vessel is expected to reduce logistical complexity, enhance safety, and maximize field

productivity during the 2026 campaign.

- **Advancing a Major Precious Metals Asset** – The Skaergaard Project is described as one of the largest undeveloped gold-palladium-platinum deposits, with ongoing work supporting future development and licensing.
