

InvestorTalk Alert: Brent Willis from Voyageur Pharmaceuticals Ltd. to host on Wednesday, June 25, 2025 at 9 AM EST

written by InvestorNews | June 24, 2025

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, June 25th, at 9 AM EST, featuring Brent Willis, President, CEO, and Director of [Voyageur Pharmaceuticals Ltd.](#) (TSXV: VM). To participate in this engaging discussion, please [click here](#)

Voyageur Pharmaceuticals is a Canadian public company developing barium and iodine-based Active Pharmaceutical Ingredients (APIs) for high-performance, cost-effective imaging contrast agents. The company aims to become the first vertically integrated radiology contrast media producer by sourcing and manufacturing its own raw materials. Voyageur owns 100% of the Frances Creek Project, a rare natural barium sulfate deposit. Voyageur works with GMP-certified pharmaceutical manufacturers in Canada to validate its products, with plans to transition into a high-margin domestic producer. The company is also advancing endo fullerene drug development. Voyageur's strategy emphasizes quality, cost control, and sustainability—embodied in its vision: "From the Earth to the Bottle."

In preparation for tomorrow's InvestorTalk, here are the three most recent news releases from Voyageur Pharmaceuticals for your review, which are listed below:

- June 23, 2025 – Voyageur and Altillion Forge Landmark Alliance to Establish North America’s First Vertically Integrated Iodine Drug Supply Chain – [click here](#)
- June 04, 2025 – Voyageur Enters Revenue Stage with First Commercial Sale of Barium Contrast Agents – [click here](#)
- May 12, 2025 – Voyageur Pharmaceuticals Announces Appointment of Ethan Mohan as Executive Vice President – [click here](#)

Here are 5 key data points from their June 23rd news release titled, “*Voyageur and Altillion Forge Landmark Alliance to Establish North America’s First Vertically Integrated Iodine Drug Supply Chain*”:

- **Strategic MOU Signed:** Voyageur Pharmaceuticals signed a non-binding Memorandum of Understanding (MOU) with Altillion Inc. to develop North America’s first vertically integrated iodine-based drug supply chain.
- **Iodine Extraction Technology Goals:** The collaboration targets 90% iodine recovery with over 99% purity of I₂ crystalline flake; current benchmark pricing is \$70/kg or \$70,000/tonne.
- **Four-Phase Rollout Plan:**
 - Phase 1: Bench-scale validation and licensing.
 - Phase 2: 200-tonne/year pilot API plant.
 - Phase 3: Scale up to 1000 tonnes/year.
 - Phase 4: Full sterile injectable drug manufacturing facility in Texas.
- **Domestic Infrastructure Development:** Plans include building an iodine extraction facility in Oklahoma and a pharmaceutical manufacturing campus in Texas to support vertical integration.

- **Funding and Market Positioning:** Voyageur is pursuing non-dilutive funding through government programs and strategic partners, addressing North America's complete reliance on iodine drug imports amid rising global demand and supply constraints.
