

InvestorTalk Alert: Jack Lifton to Host Guy Bourassa of Scandium Canada Ltd. on Wednesday, January 28, 2026, at 9:00 AM EST

written by InvestorNews | January 27, 2026

[InvestorNews.com](#) is pleased to announce an upcoming InvestorTalk hosted by Jack Lifton, featuring Guy Bourassa, CEO and Director, [Scandium Canada Ltd.](#) (TSXV: SCD), scheduled for **tomorrow, Wednesday, January 28, 2026, at 9:00 AM EST**. To participate in this engaging discussion, please [click here](#)

Scandium Canada is a public company whose ultimate goal is to bring the world's leading primary source of scandium into production, enabling the development and commercialization of aluminum-scandium (Al-Sc) alloys. The company is leveraging its Al-Sc alloys development subsidiary and the development of its Crater Lake mining project to meet the growing need for lighter, greener, longer-lasting, high-performance materials. The company aims to become a market leader in scandium, while committing itself to building a more responsible economy through innovation and agility.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Scandium Canada for your review, which are listed below:

- January 15, 2026 – Scandium Canada Confirms No Undisclosed Material Information – [click here](#)
- January 6, 2026 – Scandium Canada Announces Its Intention

To Complete A Shares For Debt Transaction – [click here](#)

- December 18, 2025 – Scandium Canada presents its annual review – [click here](#)

We found the December 18th news release titled, “*Scandium Canada presents its annual review*” particularly noteworthy and here are 5 key data points from it:

- **Updated NI 43-101 Resource:** Scandium Canada published a new NI 43-101-compliant mineral resource estimate for the TG Zone at the Crater Lake Project, confirming scale, quality, and expansion potential, with the deposit remaining open in all directions.
- **Metallurgical Process De-Risked:** The Company successfully completed a 500 kg metallurgical pilot test, a major milestone validating process parameters and significantly reducing technical risk ahead of pre-feasibility work.
- **Project Infrastructure and PFS Advancements:** Scandium Canada advanced transport logistics planning, evaluated a hydrometallurgical plant location in the Schefferville area, and reviewed access road options, supporting progression toward a future pre-feasibility study.
- **Launch of Scandium+ Division:** A new **Scandium+ division** was established to commercialize patent-pending aluminum-scandium (Al-Sc) alloys, with R&D focused on additive manufacturing powders and engagement across aerospace, automotive, and advanced manufacturing markets.
- **Strategic Indigenous Partnership:** The Naskapi Nation of Kawawachikamach made a strategic equity investment in Scandium Canada following direct project engagement, reinforcing long-term collaboration and shared commitment to responsible development of the Crater Lake Project.
