written by InvestorNews | January 27, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk hosted by Jack Lifton, featuring **Mark Tory, President, CEO, and Director, [Defense Metals Corp.](#)** (TSXV: DEFN | OTCQB: DFMTF), scheduled for **tomorrow, Wednesday, January 28, 2026, at 4:05 PM EST**. To participate in this engaging discussion, please [click here](#)

Defense Metals is an advanced rare earth elements (REE) exploration and development company focused on supplying strategically critical metals to Western defence, high-technology, and clean energy supply chains. Its flagship asset is the 100%-owned Wicheeda Rare Earth Element Project near Prince George, British Columbia, one of the most advanced undeveloped rare earth deposits in North America or Europe. A 2025 NI 43-101 compliant Pre-Feasibility Study demonstrated the project's robust mineral resource, mining reserve, and economic potential, supporting continued advancement. Defense Metals is progressing Wicheeda toward the feasibility, permitting, and production stages, aiming to become a reliable supplier of essential rare earths.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Defense Metals for your review, which are listed below:

- January 21, 2026 – Defense Metals Appoints Robin Jones as Vice President, Projects – [click here](#)
- December 22, 2025 – Defense Metals Provides Joint Letter to Shareholders from Executive Chairman and CEO – [click here](#)
- November 24, 2025 – Defense Metals Receives Support from the McLeod Lake Indian Band while Meeting in Ottawa with Canadian Government Officials to Advance the Wicheeda Rare Earth Project – [click here](#)

We found the November 24<sup>th</sup> news release titled, *“Defense Metals Receives Support from the McLeod Lake Indian Band while Meeting in Ottawa with Canadian Government Officials to Advance the Wicheeda Rare Earth Project”* particularly noteworthy and here are 5 key data points from it:

- **Indigenous & Federal Support Confirmed:** Defense Metals Corp. received reaffirmed support from both the McLeod Lake Indian Band (MLIB) and the Government of Canada following high-level meetings in Ottawa to advance the Wicheeda Rare Earth Project.
- **Ottawa Engagement Strengthens Project Momentum:** CEO Mark Tory and Chief Harley Chingee met with Canadian government officials in November 2025, resulting in confirmation of federal support for Defense Metals’ ongoing permitting and development strategy.
- **Wicheeda’s Strategic Importance Highlighted:** The Wicheeda Project is positioned as a strategic domestic source of rare earth elements, critical for electric vehicles, renewable energy, advanced manufacturing, and national security technologies.
- **Strong Indigenous Partnership:** MLIB reiterated its endorsement of the project, emphasizing economic

opportunity, land stewardship, and shared values, reinforcing a transparent and collaborative Indigenous–industry partnership.

- **Advanced Project Backed by PFS:** Wicheeda is one of the most advanced undeveloped rare earth projects in North America, supported by a 2025 NI 43-101-compliant Pre-Feasibility Study, with the Company advancing toward feasibility, permitting, and eventual production.
