

InvestorTalk Alert: Jim Atkinson from Antimony Resources Corp. to host on Wednesday, August 26, 2026, at 9:00 AM EST

written by InvestorNews | August 25, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, August 26, 2026, at 9:00 AM EST, featuring Jim Atkinson, CEO and Director, [Antimony Resources Corp.](#) (CSE: ATMY | OTCQB: ATMYF). To participate in this engaging discussion, please [click here](#)

Antimony Resources Corp. is an exploration and development company focused exclusively on Antimony. The Company's management team possesses extensive experience in financing, exploration, development and mining. The Company is focused on becoming a significant North American producer of antimony.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Antimony Resources for your review, which are listed below:

- **August 14, 2026** – Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Reports Visible Gold in Drilling of 285 grams per tonne (g/t) Gold Using Portable XRF at the Bald Hill Central Zone – [click here](#)
- **August 6, 2026** – Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Reports High-Grade Assays from the Latest Drilling at the Main Zone – Bald Hill, Including 13.0% Antimony (Sb) over 0.65meters (m) in BH-26-14 in a Zone of 3.29% Sb

over 3.05 Meters – [click here](#)

- **July 30, 2026** – Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Reports High-Grade Assays from the latest drilling at the Main Zone – Bald Hill, including 11.41% Antimony (Sb) over 1.5 meters in BH-26-14 in a zone of 2.78% Sb over 11.3 meters. Also reported are Geological Descriptions of Stibnite Mineralization in Drill Core at the Central Zone – [click here](#)
- **July 14, 2026** – Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Appoints Former Director and Professor of the United States Military Academy as Advisory to the Board of Directors – [click here](#)

We found the August 14th news release titled, *“Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Reports Visible Gold in Drilling of 285 grams per tonne (g/t) Gold Using Portable XRF at the Bald Hill Central Zone”* particularly noteworthy and here are 5 key data points from it:

- **Visible Gold Reported in Drill Core** – Antimony Resources observed visible gold in drill core from hole BHC-26-13 at the Central Zone of the Bald Hill Antimony Property in New Brunswick.
- **Portable XRF Returned 285 g/t Gold** – The visible gold occurrence, found at 165.85 m depth, was examined using a portable XRF, which reported 285 g/t gold.
- **First Visible Gold Seen in Drilling** – While gold was previously known to be associated with Bald Hill, the Company says this is the first identification of visible gold in drill core.
- **Central Zone Is South of the Main Zone** – The Central Zone is located approximately 150 to 200 m south of the Main Zone along strike and is thought to be a continuation of

the Main Zone.

- **Gold Adds a New Angle to Bald Hill** – The Company says Bald Hill remains primarily an antimony project, but the presence of visible gold in the Central Zone could add to the deposit's potential, with further results expected from newly identified mineralized areas outside the Main Zone.
