

InvestorTalk Alert: Kerem Usenmez from Volta Metals Ltd. to host on Tuesday, April 28, 2026, at 9:00 AM EST

written by InvestorNews | April 27, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, **Tuesday, April 28, 2026, at 9:00 AM EST**, featuring **Kerem Usenmez, President, CEO, and Director, [Volta Metals Ltd.](#)** (CSE: VLTA | OTCQB: VOLMF). To participate in this engaging discussion, please email tracy@investornews.com to **RSVP**.

Volta Metals is a critical mineral exploration company focused on rare earths, gallium, lithium, cesium, and tantalum. Volta owns, has optioned and is currently exploring a critical minerals portfolio in Ontario, one of the world's most prolific and emerging hard-rock critical mineral districts. Volta is advancing its 4,750-hectare Springer REE Deposit, located on the traditional territory of the Nipissing First Nations in Sturgeon Falls, approximately 70 km east of Sudbury, Ontario. The project benefits from exceptional infrastructure, including paved road access, on-site power lines, a natural gas pipeline, and Canadian National Railway service within 8 km of the deposit.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Volta Metals for your review, which are listed below:

- April 27, 2026 – Volta Metals Receives \$215,000 Grant from Ontario Junior Exploration Program – [click here](#)
- April 20, 2026 – Volta Metals Announces Closing of Non-

Brokered LIFE Offering – [click here](#)

- April 9, 2026 – Volta Files Technical Report for Springer REE Deposit, Confirming a Top-10 North American Rare Earth Resource* – [click here](#)
- April 8, 2026 – Volta Metals Amends Previously Announced Non-Brokered LIFE Offering and Files Amended Offering Document – [click here](#)

We found the April 9th news release titled, “*Volta Files Technical Report for Springer REE Deposit, Confirming a Top-10 North American Rare Earth Resource**” particularly noteworthy and here are 5 key data points from it:

- **Independent Technical Report Filed** – Volta filed an independent NI 43-101 Technical Report for the Springer REE deposit, prepared by SLR Consulting, confirming Springer as one of the top 10 rare earth deposits in North America.
- **Large Updated Resource Confirmed** – The report confirms an updated Mineral Resource Estimate of 56.6 Mt Indicated at 0.70% TREO and 119.5 Mt Inferred at 0.58% TREO, based on a C\$43/t NMR cut-off.
- **Major Growth in Resource Categories** – Compared with the prior estimate, the project delivered a 1,248% increase in Indicated resources and an 841% increase in Inferred resources, including near-surface higher-grade cores in both categories.
- **PEA Pathway Advancing** – Volta said Springer has a clear path to a Preliminary Economic Assessment, supported by a completed 5,000 m fully funded Phase 2 drill program, advancing metallurgy, and a year-end 2026 PEA target.
- **Gallium Upside Not Yet Included** – The current MRE does not include the high-grade gallium results reported from the

Fall 2025 drill program, with additional assays and gallium recovery work still underway, leaving further upside outside the present resource.
