InvestorTalk Alert: Mark Tory from Defense Metals Corp. to host on Wednesday, June 24, 2026, at 4:05 PM EST

written by InvestorNews | June 23, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, June 24, 2026, at 4:05 PM EST, featuring Mark Tory, President, CEO, and Director, Defense Metals Corp. (TSXV: DEFN | OTCQB: DFMTF). To participate in this engaging discussion, please click here

Defense Metals Corp. is an advanced rare earth elements development company focused on supplying strategically critical metals to Western defense, high-technology, and clean energy supply chains. Its primary asset is the 100%-owned Wicheeda REE deposit near Prince George, British Columbia, one of the most advanced undeveloped rare earth deposits in North America or Europe. The project is supported by a mineral resource and mining reserve outlined in the Company's 2025 NI 43-101 Pre-Feasibility Study, which indicates economic potential and supports further development. Defense Metals is advancing Wicheeda through feasibility work, permitting, and potential production. The PFS remains preliminary and subject to assumptions and uncertainties, with additional feasibility studies and permits required before any production decision.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Defense Metals for your review, which are listed below:

- May 27, 2026 – Defense Metals and Hanwha Corporation Sign Non-Binding Memorandum of Understanding To Advance Domestic Rare Earth Supply Chain – click here
- May 12, 2026 – Defense Metals Commences Pilot Flotation Test Program at SGS Lakefield for the Wicheeda Rare Earth Project – click here
- May 06, 2026 – Defense Metals Announces Commencement of the Spring 2026 Drill Program at Wicheeda Rare Earths Project – click here

We found the May 27th news release titled, "*Defense Metals and Hanwha Corporation Sign Non-Binding Memorandum of Understanding To Advance Domestic Rare Earth Supply Chain*" particularly noteworthy and here are 5 key data points from it:

- **Strategic MOU Signed** – Defense Metals signed a non-binding MOU with Hanwha Ocean and Hanwha Corporation to explore future rare earth supply and potential investment opportunities tied to the Wicheeda REE Project.
- **Potential Long-Term Offtake Framework** – The MOU provides a framework to evaluate a possible long-term offtake agreement, under which Defense Metals could supply rare earth materials from Wicheeda to support Hanwha's manufacturing and supply chain needs.
- **Strategic Investment Being Explored** – The parties will also assess a potential strategic investment by Hanwha or its affiliates in Defense Metals, subject to further due diligence, negotiations, and definitive agreements.
- **Defense and Maritime Supply Chain Focus** – The collaboration is aimed at rare earth materials used in naval propulsion systems, advanced electronics, communications systems, and other defense-related technologies.

- **Wicheeda Positioned as Supply Source** – Defense Metals' 100%-owned Wicheeda REE Project near Prince George, British Columbia, remains the Company's primary asset and is being advanced through feasibility, permitting, and potential future production.
