InvestorTalk Alert: Nicole Brewster from Renforth Resources Inc. to host on Tuesday, April 14, 2026, at 9:00 AM EST

written by InvestorNews | April 13, 2026
InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, **Tuesday, April 14, 2026, at 9:00 AM EST**, featuring **Nicole Brewster, President, CEO, and Director, Renforth Resources Inc. (CSE: RFR)**. To participate in this engaging discussion, please email tracy@investornew.com to **RSVP**.

Renforth Resources Inc. is a Canadian mineral exploration company focused on the development of critical minerals and gold assets in the Province of Québec. The Company's principal assets are the Victoria polymetallic Ni-Co-Cu-Zn-Ag-Au-PGM deposit and the Parbec gold deposit, both located near Malartic, Québec, in one of Canada's premier mining jurisdictions.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Renforth Resources for your review, which are listed below:

- March 24, 2026 – Renforth Closes $1 million Financing and Commences Drill Program Permitting for Parbec Gold Deposit – click here
- March 18, 2026 – Renforth Retains Specialist Geochemical Consultant for Victoria Ni Sulphide Polymetallic Deposit in Quebec – click here
- March 11, 2026 – Renforth Resources Reports Systematic

Platinum and Palladium Sampling Results at Victoria Deposit, Confirms Deposit-Wide Presence of PGMs in Ultramafic Horizon – click here
- February 26, 2026 – Fieldwork Extended on Renforth's Parbec Gold Deposit near Malartic, Quebec – click here

We found the March 24th news release titled, "*Renforth Closes $1 million Financing and Commences Drill Program Permitting for Parbec Gold Deposit*" particularly noteworthy and here are 5 key data points from it:

- **$1 Million Financing Closed** – Renforth closed a C$1,000,000 private placement through the issuance of 40 million units at $0.025 per unit, with each unit including one share and one warrant exercisable at $0.05 for 24 months.
- **Strategic Investor Added** – The financing was completed with one investor, Frank Guillemette, who also entered into a three-year voting support agreement backing management at shareholder meetings.
- **Parbec Drill Permitting Underway** – Renforth has started the permitting process for a 60,000-metre drill program at the Parbec Gold Deposit in Malartic, Québec, with drilling planned over two years.
- **Drill Program Aims to Grow and Upgrade Resource** – The planned drilling is designed to better define the underground bulk sample target, potentially increase and reclassify gold ounces, and test deeper and gap areas within the current deposit model.
- **Surface Work and Education Initiative Advancing** – The Parbec chipping program is complete, overburden removal is expected to begin shortly to support further surface sampling, and Renforth also announced sponsorship of

Geologize access for more than 3,000 Ontario geoscience students.
