

# InvestorTalk Alert: Pat Ryan from Ucore Rare Metals Inc. to host on Tuesday, April 15, 2025

written by InvestorNews | April 14, 2025

**InvestorNews.com** is pleased to announce an upcoming **InvestorTalk** scheduled for tomorrow, **Tuesday, April 15th, at 9 AM EST**, featuring **Pat Ryan**, CEO and Chairman of [Ucore Rare Metals Inc.](#) (TSXV: UCU | OTCQX: UURAF). To participate in this engaging discussion, please [click here](#)

Ucore focuses on rare- and critical-metal resources, specializing in extraction, beneficiation, and separation technologies with potential for production, growth, and scalability. Its vision is to become a leading technology provider of metal separation products and services to the mining and mineral extraction industry. Through strategic partnerships, the company plans to establish a heavy and light rare-earth processing facility in Louisiana, followed by Strategic Metal Complexes in Canada and Alaska, and the longer-term development of its wholly owned Bokan-Dotson Ridge Rare Heavy REE Project on Prince of Wales Island in Southeast Alaska.

In preparation for tomorrow's InvestorTalk, here are the five most recent news releases from Ucore for your review, which are listed below:

- April 4, 2025 – Ucore Comments on China's Immediate Restrictions on Rare Earth Exports – [click here](#)
- March 21, 2025 – Ucore Applauds White House Executive

Action to Strengthen Critical Mineral Production – [click here](#)

- February 28, 2025 – Ucore Closes Private Placement Financing – [click here](#)
- January 31, 2025 – Ucore Accepts \$2M Investment from Hondo Private Equity LLC – [click here](#)
- January 21, 2025 – Ucore Awarded Funding by Ontario Critical Minerals Innovation Fund – [click here](#)

We found the April 4th news release titled, “*Ucore Comments on China’s Immediate Restrictions on Rare Earth Exports*” particularly noteworthy and here are 5 key data points from it:

- **China’s Export Ban (Effective April 4, 2025):** China has imposed export restrictions on seven key medium and heavy rare earth elements – samarium, gadolinium, terbium, dysprosium, lutetium, scandium, and yttrium – for all countries.
- **RapidSX™ Demonstration Plant:** Ucore is operating a Commercial Demonstration Plant in Kingston, Ontario, funded through a USD \$4 million contract with the U.S. Department of Defense, to validate its proprietary rare earth refining technology, RapidSX™.
- **Louisiana Strategic Metals Complex (SMC):** Ucore is developing a major rare earth processing facility in Alexandria, Louisiana, capable of handling both heavy and light rare earth concentrates to reduce reliance on foreign sources.
- **Government Funding and Support:** Ucore has secured CAD \$4.28 million in funding from the Government of Canada and a non-binding LOI with the State of Louisiana for incentives valued at approximately USD \$15 million.
- **U.S. Executive Action:** President Trump invoked the Defense Production Act on March 20, 2025, emphasizing the need to

reduce dependence on “hostile foreign powers” for critical minerals, aligning with Ucore’s ongoing collaboration with the U.S. Department of Defense.
