- June 7, 2024 – Ucore Announces Further Amendments and Extension of Certain Debt Arrangements – [click here](#)
- May 15, 2024 – Ucore's Louisiana Rare Earth Refinery is Strategically Aligned with the United States' Objectives on Western Supply Chain Resilience – [click here](#)
- April 29, 2024 – Ucore Qualifies Wicheeda Mixed Rare Earth Carbonate for RapidSX Technology Processing at Commercial-Scale Facilities – [click here](#)

5-Data Points from the news release on May 15, 2024 titled, *Ucore's Louisiana Rare Earth Refinery is Strategically Aligned with the United States' Objectives on Western Supply Chain*

Resilience:

- **US Government Tariffs on Chinese EV Imports:** The US Government has announced a 100% tariff rate on electric vehicles (EVs) imported from China to protect American manufacturers from China's unfair trade practices.
- **US Trade Representative's Section 301 Tariffs:** A new 25% tariff on permanent magnets has been recommended, as part of a series of steps to eliminate China's unfair trade practices and support supply chain diversification.
- **Ucore's Louisiana Strategic Metals Complex (SMC):** Ucore's facility in Alexandria, Louisiana, is designed to process up to six different sources of US-friendly feedstock, enhancing supply chain resilience for heavy and light rare earth elements (REEs).
- **Production Increase Plan:** Ucore plans to increase its production from 2,000 tonnes per annum to 7,500 tonnes per annum over the first few years, with further expansion planned across North America.
- **Strategic Vision and Partnerships:** Ucore aims to disrupt China's control of the North American REE supply chain through the establishment of processing facilities in Louisiana, Canada, and Alaska, alongside the development of the Bokan-Dotson Ridge Rare Heavy REE Project in Alaska.
