

# InvestorTalk Alert: Robin Dunbar from Grid Metals Corp. to host on Thursday, November 13, 2025

written by InvestorNews | November 12, 2025

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Thursday, November 13, at 9:00 AM EST, featuring Robin Dunbar, President, CEO, and Director, [Grid Metals Corp.](#) (TSXV: GRDM | OTCQB: MSMGF). To participate in this engaging discussion, please [click here](#)

Grid Metals is advancing four exploration and development projects in southeastern Manitoba's Bird River area. The Makwa Property, a nickel-copper-PGM-cobalt project on the south arm of the Bird River Greenstone Belt, is under an Option and Joint Venture Agreement with Teck Resources, which can earn up to 70% by investing CAD \$17.3 million. The Mayville Property, located on the north arm, hosts copper-nickel mineralization and is owned subject to a minority interest. The Falcon West Property, situated 110 km east of Winnipeg, contains high cesium grades from historical drilling, including 2.2 metres at 15.0% Cs<sub>2</sub>O and 3.2 metres at 4.6% Cs<sub>2</sub>O. Adjacent to Mayville, the Donner Property hosts lithium and cesium mineralization, with Grid holding a 75% interest. All projects lie within the ancestral lands of the Sagkeeng First Nation, with whom Grid maintains an active Exploration Agreement.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Grid Metals for your review, which are listed below:

- November 11, 2025 – Grid Metals Corp. Announces Exploration Programs Underway – [click here](#)
- October 30, 2025 – Grid Metals Announces Closing of Second Tranche of Strategic Private Placement – [click here](#)
- October 17, 2025 – Grid Metals Announces Closing of First Tranche of Strategic Private Placement – [click here](#)
- October 10, 2025 – Grid Metals Announces Strategic \$4 Million Private Placement – [click here](#)
- September 11, 2025 – Grid Metals Corp. Receives Drill Permit for Falcon West Cesium Property – [click here](#)

We found the November 11<sup>th</sup> news release titled, “*Grid Metals Corp. Announces Exploration Programs Underway*” particularly noteworthy and here are 5 key data points from it:

- **C\$4.03 Million Financing Completed:** Grid Metals closed a financing round for total gross proceeds of C\$4,027,158, with the majority of funds coming from a single strategic investor making their first investment in the company.
- **Falcon West Cesium Drill Program Launched:** A 40-hole drill program has begun at the Falcon West Cesium Project, focused on the Lucy cesium zone, targeting a near-surface pegmatite system known for high-grade cesium mineralization. This marks the company’s first major effort to define a discrete cesium zone at the property.
- **Makwa Nickel-Copper Project Drilling Funded by Teck:** Under the Option and Joint Venture Agreement with Teck Resources Limited, exploration drilling and downhole geophysics have been permitted at the Pavo Anomaly where surface samples returned up to 1.1% nickel. A drill rig has already been mobilized.
- **Strategic Project Portfolio in Manitoba:** Grid’s focus remains on four key projects in the Bird River area—Makwa

(Ni-Cu-PGM-Co, Teck JV), Mayville (Cu-Ni), Falcon West (Li-Cs, with historic intercepts up to 15.0% Cs<sub>2</sub>O), and Donner (Li-Cs, 75% owned)—all situated on Sagkeeng First Nation lands under an active exploration agreement.

- **Cesium Gains Critical Metal Designation in Canada:** Cesium, a primary focus of the Falcon West program, was recently designated a critical metal in the Canadian Federal Budget, underscoring its strategic importance in high-tech and defense applications and enhancing Falcon West's exploration significance.
