

InvestorTalk Alert: Stephen Gray from Fox Tungsten Ltd. to host on Wednesday, July 8, 2026, at 9:00 AM EST

written by InvestorNews | July 7, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, July 8, 2026, at 9:00 AM EST, featuring Stephen Gray, President, CEO, and Director, [Fox Tungsten Ltd.](#) (TSXV: FOXT). To participate in this engaging discussion, please [click here](#)

Fox Tungsten is focused on making new discoveries and building resources in proximity to infrastructure on the Company's 100-percent-owned portfolio of diversified metals projects in British Columbia. Projects include the high-grade Fox Tungsten deposit and the Silverboss molybdenum-copper-gold-silver project adjacent to Glencore's closed Boss Mountain molybdenum mine. Fox Tungsten is committed to responsible mineral resource development. The Company's priority is to build and sustain mutually beneficial relationships with Indigenous Communities in the territories in which the Company explores.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Fox Tungsten for your review, which are listed below:

- June 25, 2026 – Fox Tungsten Announces Start of 20,000m Drill Program – [click here](#)
- June 09, 2026 – Fox Tungsten Announces Symbol Change to “FOXTF” on the OTC Pink Market – [click here](#)

- May 04, 2026 – Fox Tungsten Announces Passing of Former CEO Mike Cathro – [click here](#)
- April 23, 2026 – Fox Tungsten Closes Bought Deal Private Placement for Gross Proceeds of C\$12.7M – [click here](#)

We found the June 25th news release titled, “*Fox Tungsten Announces Start of 20,000m Drill Program*” particularly noteworthy and here are 5 key data points from it:

- **20,000-Metre Drill Program Started** – Fox Tungsten has started its fully funded 20,000-metre drill program at the Fox Project in south-central British Columbia, with the first diamond drill rig now active on site.
- **Two-Rig Summer Campaign** – The first drill rig has been mobilized, and a second rig is expected in early July, supporting what the Company describes as the largest drill program in its history.
- **Resource Growth Is the Main Focus** – About 60% of drilling will target expansion of the existing Fox tungsten resource, including continuity between the BN, RC, and BK zones and down-dip extensions of the BN and RC zones.
- **New Discovery Targets Included** – Around 30% of drilling will test broader Fox exploration targets, including deeper extensions of known zones and potential new areas at Fox North and the August Showing.
- **Silverboss Also Being Tested** – About 10% of drilling will focus on the nearby Silverboss property, targeting copper and molybdenum opportunities near Glencore’s former Boss Mountain molybdenum mine.
