Jack Lifton with Tom Drivas on the Saskatchewan Research Council's Rare Earths Processing Facility

written by InvestorNews | October 1, 2020

InvestorIntel's Tracy Weslosky moderates a discussion with the Technology Metals Show host Jack Lifton and Appia Energy Corp.'s (CSE: API | OTCQB: APAAF) CEO, President and Director Tom Drivas on the Saskatchewan Research Council's (SRC) plans to develop a "first-of-its-kind" Rare Earth Processing Facility in Saskatchewan, Canada.

In an InvestorIntel interview that can also be viewed on our InvestorIntel YouTube channel, Jack started, "This is the first time it has been done in North America," he continued, "The Canadian companies that are associated with the SRC are going to be the leading companies in Canada in the rare earths space."

Tom went on to say that Appia has a high-grade rare earths project in Saskatchewan. "Having a rare earths processing plant in Saskatchewan, in the same area where we are and in the same jurisdiction, is a game changer," he added. Tom also explained how the processing facility is going to benefit Appia Energy and its shareholder.
