

Market conditions offer temptations that critical mineral investors simply cannot ignore

written by InvestorNews | November 22, 2022

In this InvestorIntel interview, host Tracy Weslosky interviews [Hallgarten & Company](#)'s Principal and Mining Strategist Christopher Ecclestone about the impact of existing market conditions on the critical minerals sector. Starting with an overview of existing market conditions and the impact of rising inflation and interest rates, Christopher says that the "current basement prices" in mining offer investors temptations they simply cannot ignore.

Tracy presses Christopher on these specific opportunities and requests examples of both his favorite critical minerals and companies investors may enjoy researching. Offering a top 3 hit list of critical minerals and offering 3 companies to review that have these resources, Christopher reinforces the theme that existing market conditions offer opportunities for those who are knowledgeable in this sector.
