

Pat Ryan of Ucore Rare Metals Discusses Rare Earths Processing and Innovation in North America

written by InvestorNews | March 16, 2023

In this InvestorIntel interview during PDAC 2023, Byron W King talks to [Ucore Rare Metals Inc.](#)'s (TSXV: UCU | OTCQX: UURAF) CEO and Chairman Pat Ryan about an update on Ucore's RapidSX™ Demonstration Plant for the separation of heavy and light rare earth elements. With a focus on high-margin midstream processing, Pat discusses Ucore's RapidSX™ technology platform that can process rare earths and produce output that is 3-5 times greater than conventional solvent extraction in addition to reducing the CAPEX and OPEX.

As Ucore is focused on critical metal separation and refining in North America, particularly for heavy rare earths, Pat provides an update as Ucore shifts from its commercial demo plant in Kingston, Ontario to a planned Strategic Metals Complex in the state of Louisiana after receiving a \$15 million incentive package from Louisiana Economic Development. He mentions the new Louisiana facility is targeted for operations by the end of 2024.

About Ucore Rare Metals Inc.

Ucore is focused on rare- and critical-metal resources,

extraction, beneficiation, and separation technologies with the potential for production, growth, and scalability. Ucore has an effective 100% ownership stake in the Bokan-Dotson Ridge Rare Earth Element Project in Southeast Alaska, USA. Ucore's vision and plan is to become a leading advanced technology company, providing best-in-class metal separation products and services to the mining and mineral extraction industry.

Through strategic partnerships, this plan includes disrupting the People's Republic of China's control of the North American REE supply chain through the near-term development of a heavy and light rare-earth processing facility in the US State of Louisiana, subsequent SMCs in Alaska and Canada and the longer-term development of Ucore's heavy-rare-earth-element mineral-resource property at Bokan Mountain on Prince of Wales Island, Alaska.
