

Prophecy Development's Oosterman on the permit license process for the Gibellini Vanadium Project in Nevada

written by InvestorNews | March 19, 2019

Recently during [PDAC 2019](#), Danniell Oosterman, Vice President of Exploration at [Prophecy Development Corp.](#) (TSX: PCY | OTCQX: PRPCF), shared an update on the Gibellini Vanadium Project in an interview with InvestorIntel's Peter Clausi.

Danniell said: "Currently we are in the permitting stage. We are an advanced stage project. This month we are about to submit all our baseline studies on the project. We are basically going to submit that and our updated mine plan of operations and what that will do, it will be reviewed by the BLM and it is going to kick off our environmental impact statement...at the end of that process we should have a permit in hand to mine and we will be the first vanadium mine in the United States."

Prophecy is developing the Gibellini Project – the only large-scale, open-pit, heap-leach vanadium project of its kind in North America. Located in Nevada, Gibellini is currently undergoing EPCM and Permit preparation. Prophecy also has mining projects in Mongolia and Bolivia.
