

Stephen Burega Onsite at the Appia Alces Lake Project in Northern Saskatchewan

written by InvestorNews | July 21, 2023

In an exclusive onsite interview from the Alces Lake Project in Northern Saskatchewan, Stephen Burega, the President of [Appia Rare Earths & Uranium Corp.](#) (CSE: API | OTCQX: APAAF), engages with Tracy Weslosky of InvestorIntel to share insights on the progress of the company's drilling program. Burega praises the team's efficiency and the advances made during his inaugural visit to the site, providing Weslosky and her audience with an up-close view of the operations.

He underscores the effective utilization of the budget, revealing that they have successfully completed one-third of the project and are strategically directing their efforts towards uncovering new targets. The interview includes a special appearance by Appia Project Geologist, Kahlen Branning, who offers viewers a glimpse into a core shed and elaborates on the critical minerals present in the samples, namely terbium, neodymium, and dysprosium.

Further into the discussion, Burega outlines the instrumental role of helicopters in the movement of drilling equipment, underscoring the operation's logistical ingenuity. The conversation concludes on an optimistic note as Burega shares the promising future of the Alces Lake project and its potential in rare earth extraction.

About Appia Rare Earths & Uranium Corp.

Appia is a publicly traded Canadian company in the rare earth element and uranium sectors. The Company is currently focusing on delineating high-grade critical rare earth elements and gallium on the Alces Lake property, as well as exploring for high-grade uranium in the prolific Athabasca Basin on its Otherside, Loranger, North Wollaston, and Eastside properties. The Company holds the surface rights to exploration for 113,837.15 hectares (281,297.72 acres) in Saskatchewan. The Company also has a 100% interest in 13,008 hectares (32,143 acres), with rare earth element and uranium deposits over five mineralized zones in the Elliot Lake Camp, Ontario. Lastly, the Company holds the right to acquire up to a 70% interest in the PCH Project which is 17,551.07 ha. in size and located within the Goiás State of Brazil.
