

# Tawana Bain and ACRG's Drive for a Sustainable American Supply Chain through Net-Zero Mineral Production

written by InvestorNews | February 5, 2024

In a recent Investor.Coffee interview conducted by Jack Lifton, Tawana Bain, the CEO of [American Clean Resources Group, Inc.](#) (OTC: ACRG), shared insights into the company's innovative approach to contributing to the American supply chain through the production of net-zero minerals and metals. Bain highlighted the company's focus on utilizing tailings, which significantly reduces energy consumption by 90% compared to traditional mining processes. The venture is set to power its operations entirely off-grid, leveraging renewable energy platforms developed on their property located in Tonopah, NV, a community nicknamed the **Queen of the Silver Camps** for its mining-rich history.

Bain discussed the strategic position of their property near the developing lithium industry hub, emphasizing the potential for neighboring facilities to benefit from the excess power generated by American Clean Resources Group. Addressing potential roadblocks such as permitting and tribal disputes, Bain expressed confidence in overcoming these challenges through the support of a robust advisory group and strategic alliances with relevant agencies.

Reflecting on her background, Bain shared her extensive experience in environmental consulting, strategy, and community outreach, marking her public debut in a leadership role with this project. Lifton praised Bain for identifying a critical need in energy production and for her efforts to educate the

investing public on the benefits of the company's model, beyond political considerations. To access the complete interview, [click here](#)

## **About American Clean Resources Group, Inc.**

American Clean Resources Group, Inc. (ACRG) is poised to be a trailblazer in renewable and environmental development within the United States. Committed to strengthening the American Supply Chain and advancing Climate Change Reduction through comprehensive Resource Management, ACRG aims to spearhead the largest renewable energy project in the U.S. located in Nevada's Big Smokey Valley of Esmeralda County, near Tonopah. Our strategic advantage lies in controlling the largest renewable energy site in the country, holding water rights, and possessing vital infrastructure. Over the past 15 years, we've retained ownership despite lucrative offers, aligning with our strategic vision to construct the United States' largest renewable energy park focused on processing Gold and Silver.

Our strategy involves leveraging existing assets and pursuing strategic acquisitions across air, water, and land domains, aligning both vertically and horizontally. Additionally, we aim to lead in reprocessing mineral waste and providing toll, specialty, and custom milling services for precious and rare earth metals.
