

Chris Berlet discusses Stakeholder Gold's new gold discoveries in the Yukon's White Gold District

written by InvestorNews | October 31, 2023

In a recent InvestorNews interview host Tracy Weslosky sat down with Chris Berlet, President, CEO, and Director of [Stakeholder Gold Corp.](#) (TSXV: SRC), to discuss the significant gold and copper anomalies [recently discovered](#) at their Ballarat Project in the White Gold District of the Yukon Territory in Canada.

Chris highlighted the discovery of two distinct sub-parallel and anomalous gold trends within the Sky Zone, presenting an extraordinary opportunity for Stakeholder Gold. The proximity of these gold-bearing structures to the planned Northern Gateway Road, some major mining players like Newmont and promising infrastructure advantages, adds to their significance.

With mineralization similar to the Golden Saddle deposit, Chris highlighted the “compelling economics” of their Sky Zone Extension. He suggested that if their discoveries can mirror Golden Saddle's economic success, there's potential for a significant re-evaluation of the Stakeholder Gold's shares.
