InvestorTalk Alert: Frank Basa from Nord Precious Metals Mining Inc. to host on Wednesday, July 15, 2026, at 9:00 AM EST

written by InvestorNews | July 14, 2026

InvestorNews.com is pleased to announce an upcoming InvestorTalk scheduled for tomorrow, Wednesday, July 15, 2026, at 9:00 AM EST, featuring Frank Basa, CEO and Chairman, [Nord Precious Metals Mining Inc.](#) (TSXV: NTH | OTCQB: NPMMF). To participate in this engaging discussion, please [click here](#)

Nord Precious Metals Mining Inc. operates TTL Laboratories, the only permitted high-grade milling facility in Ontario's historic Cobalt Camp, linking high-grade silver exploration with strategic metals recovery. Its 63 sq. km Castle property, plus 225 hectares of leases, includes three of the five most productive past-producing silver mines in the Gowganda Camp and the Castle East discovery, which hosts a historical inferred resource of 7.56 million ounces silver grading 8,582 g/t Ag. The acquired leases also include a historical indicated tailings resource of about 1.94 million tonnes grading 47.5 g/t Ag. Nord's Re-2Ox process, validated at pilot scale, supports recovery of cobalt, nickel and other metals, while its portfolio includes interests in Quebec critical minerals properties and Ontario lithium exploration.

In preparation for tomorrow's InvestorTalk, here are some recent news releases from Nord Precious Metals Mining for your review, which are listed below:

- July 13, 2026 – Nord Precious Metals Outlines Gold Potential Along the Ridout-Tyrrell Corridor at Castle-Gowganda – click here
- June 30, 2026 – Nord Precious Metals Announces Clarification to Investor Relations Agreements – click here
- June 29, 2026 – Nord Precious Metals Announces OTCQB US Symbol Change to "NPMMF" – click here
- June 29, 2026 – Nord Precious Metals Further Extends Castle East Robinson Zone with 13,620 g/t Silver and 1.84% Cobalt over 0.6m, Including 25,803 g/t Silver (752.7 oz/ton) and 3.60% Cobalt over 0.30m – click here

We found the July 13rd news release titled, "*Nord Precious Metals Outlines Gold Potential Along the Ridout-Tyrrell Corridor at Castle-Gowganda*" particularly noteworthy and here are 5 key data points from it:

- **Gold Potential Being Ranked Across Castle–Gowganda** – Nord Precious Metals is compiling surface and drill-hole gold results across its consolidated Castle–Gowganda district into a ranked set of exploration targets.
- **Ridout-Tyrrell Corridor Context** – The Company highlights that Castle–Gowganda lies along the Ridout-Tyrrell deformation zone, the same regional corridor associated with notable precious metals systems including Côté Gold.
- **High-Grade Gold Intercepts Reported Historically** – Prior drilling returned gold intercepts including 24.95 g/t Au over 0.3 m in hole CS-20-31 and 4.3 g/t Au over 4.0 m in hole CS-19-19, with additional broader mineralized intervals reported.
- **Gold Targets Advanced Alongside Silver Work** – Nord says current drilling remains focused on Castle East silver, but selected holes have also been positioned to test gold

values identified from the 2014 and 2023 stripping programs.

- **Follow-Up Work Planned Within 30,000 m Program** – The Company is ranking targets for mapping, prospecting and stripping during the current field season, with drill testing to be sequenced within the broader 30,000-metre program as results warrant.
