5-Data Points from Silver Bullet Mines' most recent news titled, *Silver Bullet Mines Provides Update on Washington Silver Mine, A New Director, and a Lead Order for Financing*:

- **Washington Mine Preparations:** Silver Bullet Mines is continuing preparations for mining at its Washington Mine Property in Idaho, aiming to start production at 50 tons per day within the next few months.
- **Historical Mineralization:** The Washington Mine, historically a high-grade gold/silver mine, contains an estimated 3 million ounces of silver with grades between 30 to 90 ounces per ton and 15,000 ounces of gold at 0.3 ounces per ton.
- **Recent Bulk Sampling:** SBMI's 2021 bulk sample from the Washington Mine averaged 55.5 oz/t silver, which equates to over 1,902 g/t silver, supporting the high-grade potential of the site.
- **New Director:** SBMI has appointed Kerem Usenmez, a Geological Engineer with 25 years of global mining experience, to its board of directors to support mining plans at the Washington Mine and the Buckeye Silver Mine.
- **Financing Plans:** To finance further work at the Washington Mine, SBMI intends to issue a convertible debenture of up to \$1,000,000, with a lead order for \$300,000 from existing shareholders.
