We found the February 4th news release titled, “*Trinity One Metals Closes Acquisition of “Silver-1” Historic Silver Mine in Southern Ecuador*” particularly noteworthy and here are 5 key data points from it:

- **Acquisition Completed** – Trinity One Metals Ltd. closed the acquisition of 100% of the entity holding the Silver-1 Mine, securing full corporate control and access to historical technical and permitting data.
- **Past-Producing High-Grade Silver Asset** – Silver-1 is a historic underground mine within a 3,108-hectare concession in southern Ecuador, hosting an epizonal silver-lead-zinc vein system in the Cañar-Azuay silver belt and previously mined using underground workings and a 100-tpd mill.
- **Exploration Target Upside** – Historical estimates indicate a conceptual target of 200,000–700,000 tonnes grading 15–25 oz/t silver with associated zinc (2.2–3.6%) and lead (0.9–1.4%), with mineralization remaining open along strike and depth.
- **Transaction Terms** – Consideration totaled US\$540,000 cash (staged payments) plus 5,000,000 shares, with resale restrictions extending up to 36 months and assumption of certain liabilities.
- **Next Steps Toward Resource Definition** – The Company plans a focused confirmation program to validate historical work and advance the project toward a modern compliant resource

estimate.
