

Peter Clausi Unveils Exciting Advances in Silver Bullet Mines' Silver Production at Super Champ

written by InvestorNews | January 13, 2025

January 13, 2025 – In a recent interview on Investor.News with Tracy Hughes, Peter Clausi, Director and VP of Capital Markets at [Silver Bullet Mines Corp.](#) (TSXV: SBMI | OTCQB: SBMCF), provided an insightful update on the company's silver mining operations in Arizona. Visiting the Super Champ mine, Clausi highlighted the operational simplicity that underscores low cost, low risk, and high margins, key factors for maintaining profitability. He shared three short videos from his visit, illustrating the operational dynamics (inset in the video): the mill in readiness for processing, substantial stockpiles awaiting processing, and the active mining at the surface, further demonstrating the streamlined nature of their operations.

Clausi also provided commentary on the silver market, predicting stable prices with potential increases tied to the economic policies of the current U.S. administration. He discussed the strategic priorities of Silver Bullet Mines, emphasizing that their focus extends beyond infrastructure to the efficient extraction and sale of silver. He highlighted recent significant achievements at the Super Champ site, noting high-grade silver [assays](#) that bolster the company's confidence in the mine's potential. Clausi mentioned planned upgrades to their Globe mill, aiming to optimize the processing of varied ore qualities and enhance silver production. These efforts align with the

company's objectives to maximize silver output and revenue through the direct sale of concentrates and dore bars, ensuring a promising future in silver production.

About Silver Bullet Mines Corp.

Silver Bullet Mines Corp. (SBMI) is making headway in the gold and silver production industry. SBMI recently revealed a third potential revenue stream through a partnership to process around 900 pounds of high-grade gold concentrate at its Globe, Arizona facility, benefiting from its advanced gravity circuit. Besides this, SBMI's primary operations focus on silver extraction from the Buckeye Silver Mine and silver/gold production at its Washington Mine in Idaho, to be processed at its fully operational mill. The company recently reported promising high-grade silver findings from the Treasure Room and is working on a financing strategy for its operations. An ambitious goal is to stabilize the Treasure Room for deeper exploration. Another highlight was the successful interception of a mineral-rich zone at the Buckeye Mine, known as "Zone1," believed to contain higher-grade silver. The company plans to continue mining this vein and refine the material at its Globe mill. Recent developments position SBMI as a leading player in silver mining, suggesting a bright future for the company and its investors.
