In this InvestorNews interview, host Peter Clausi sits down with Stephen Burega, President, CEO, and Director of [Romios Gold Resources Inc.](#), (TSXV: RG | OTCQB: RMIOF) to discuss the company's latest exploration achievements. Highlighted in a [news release](#) on October 12, 2023, Romios has made significant strides in Nevada by discovering a high-grade copper boulder train at its Kinkaid project within the Walker Lane trend. This discovery, coupled with the identification of possible porphyry-type alterations, led to the staking of sixteen new claims. The exploration uncovered nine mineralized boulders showing copper values averaging 5.03% Cu and noteworthy gold values, suggesting a sizeable mineralized system just waiting to be fully explored. Under the guidance of John Biczok, VP of Exploration, Romios is poised to further investigate these new and existing claims through detailed mapping and sampling.

The company's exploration strategy, as Burega detailed to Clausi, focuses on leveraging Romios' expertise to tap into underexplored areas, showcasing the efficiency and potential of its Nevada projects. With over 25 targets now identified on the Kinkaid property, every expedition uncovers new potential, underscoring Romios' commitment to cost-effective and impactful exploration. This relentless pursuit of discovery highlights the significant prospects and exciting future that Romios Gold Resources Inc. faces in its quest to unearth valuable copper,
