Stephen Burega on what Survey Results may offer Romios Gold Shareholders

written by InvestorNews | December 15, 2022
In this interview Peter Clausi has Romios Gold Resources Inc.'s (TSXV: RG | OTCQB: RMIOF) CEO, President, and Director Stephen Burega discuss about being a multi-jurisdictional exploration company focused primarily on gold, copper and silver. Starting the discussion on the "…newly discovered, copper and tungsten bearing skarn" released from the 2022 IP (Induced Polarization) survey at the Trek South Project in BC's Golden Triangle, Stephen explains how these results offer the potential for substantial mineralization on the project.

Covering a wide range of topics around Romios Gold's portfolio of assets and projects, Stephen goes on to discuss Romios' Kinkaid Project and Scossa Gold Project in Nevada, which is ranked as one of the top mining jurisdictions in the world. As a former high-grade gold producer, Stephen says that some of the ores at the Scossa Gold Project were so high that it was stored in a bank vault.
