

Thunderstruck copper assets 'ready to go now' with JV partner

written by InvestorNews | February 6, 2018

"In the last few months we have got our permitting in place, compensation agreements with the chiefs of every [Fiji] village, license renewals...we are ready to go now with joint venture partners." – states Bryce Bradley CEO, President and Co-founding Director of [Thunderstruck Resources Ltd.](#) (TSXV: AWE) in an interview with InvestorIntel's Jeff Wareham.

Jeff Wareham: Of all the places that I talk to about mining, Fiji is one of the most interesting ones. How is it as a jurisdiction to work in?

Bryce Bradley: Surprisingly a lot of people did not know about Fiji as a mining jurisdiction, but it has been mining for over 75 years. There is a gold mine to the north of us on the main island. There is another one, Lion One Metals, which is going into development right now. It has its development permit. It is a gold development play. There is a big copper porphyry owned by Newcrest right to the right of us at 20 kilometers. It is very mining friendly right from grassroots right through to production.

Jeff Wareham: When should investors be looking for more news?

Bryce Bradley: We will be getting a lot of news. We are going to be putting out a press release next week on results from our exploration program on our gold asset, Liwa Creek, that will come out next week. The following week we will be putting out results on Rama Creek, our copper porphyry. In the meantime, we

are actually getting, it cannot be called a resource estimate, but it is a back-of-the envelope grade and tonnage estimate on our zinc-copper assets for potential joint venture partners...to access the complete interview, [click here](#)
