About American Tungsten Corp.
American Tungsten Corp. is a Canadian-based exploration and development company focused on advancing the Ima Mine Project, a high-quality, private-patented, past-producing underground tungsten mine located in Idaho, USA. The Company’s strategy is centered on advancing the Ima Mine back into commercial production through a clearly defined, phased development approach. Phase I involves the evaluation and potential processing of existing surface tailings, providing a lower capital pathway to near term production. Phase II is focused on the rehabilitation and restart of the historic underground mine, leveraging the site’s extensive existing infrastructure and historical production profile. With tungsten recognized as a critical metal for defence, industrial manufacturing, and advanced technologies, American Tungsten is focused on re-establishing domestic tungsten production and supporting North American supply chain security. www.americantungstencorp.com
