

Antimony Resources Corp. (ATMY) (ATMYF) (K8J0) Closes First Tranche of Financing

written by Raj Shah | December 30, 2025

December 30, 2025 ([Source](#)) – Antimony Resources Corp. (CSE: ATMY) (OTCQB: ATMYF) (FSE: K8J0) (the “Company” or “ATMY”) announces that it has closed the first tranche of its previously announced private placement financing (the “Offering”). The Company issued a total of 21,020,298 Units of the Company (the “Units”) at a price of CAN\$0.45 per Unit for gross proceeds to the Company of CAN\$9,459,134.10. Each Unit consists of one common share in the capital of the Company (each, a “Common Share”) and one common share purchase warrant (each, a “Warrant”). Each Warrant entitles the holder thereof to purchase one Common Share at an exercise price of CAN\$0.75 for a period of 24 months from the issuance thereof. In addition to being subject to statutory and CSE 4-month hold periods, all Units issued will be restricted from trading until June 29, 2026. The net proceeds received from the Offering will be used by the Company for exploration and development activities and general working capital.

Dominari Securities LLC. and Revere Securities LLC. acted as joint placement agents for the financing. The Company paid a total commission of CAN\$756,730.73 in cash and issued a total of 1,681,623 broker warrants. The broker warrants are exercisable at CAN\$0.75 for a period of 24 months from closing and are restricted from trading until June 29, 2026.

Jim Atkinson, CEO and President of ATMY committed, “We are pleased to have new investors from the United States join our share registry and thank our existing shareholders for their

continued support. Global demand for Antimony is at all time highs with China export restrictions. These China restrictions have intensified market volatility driving prices to all time highs. Antimony is essential for the military. Our goal is to develop our Bald Hill Antimony deposit and become a major supplier of Antimony for North America.”

About Antimony Resources Corp. (CSE: ATMY) (OTCQB: ATMYF) (FSE: K8J0)

Antimony Resources Corp. is a exploration and development company focused exclusively on Antimony. The Company’s management team possesses extensive experience in financing,

exploration, development and mining. The Company is focused on becoming a significant North American producer of antimony.

The Company is developing the Bald Hill Antimony Project located in New Brunswick, Canada.

Bald Hill Antimony Project Highlights

- Bald Hill is a well-known, high-grade antimony deposit in southern New Brunswick
- Excellent infrastructure including roads, power and a deep sea port 45 Klms away.
- Past and current work including drilling has outlined an antimony deposit over 700 m. long as part of a much longer zone of breccia.
- Widths of mineralization average 3 to 4 meters and average grades range between 3% to 4% antimony.
- 2025 NI-43-101 Technical Report: Potential quantity and grade of the drilled area, which is the target of our exploration, is in the **2.700,000 tonne range grading 3.0% to 4.0% Sb (~81,000 to 108,000 tonnes contained antimony)**¹ – It should be noted that ATMY has not completed enough work to determine a resource for the Bald Hill Antimony Project. The stated potential is conceptual in nature, and it is not known if the project will be economic.
- Potential to expand based on additional known targets
