

Argentina Lithium Announces Adoption of Advance Notice Provision

written by Raj Shah | May 9, 2018

TSXV: LIT | OTCQB: PNXLF

May 8, 2018 ([Source](#)) – **Argentina Lithium & Energy Corp.** (TSX-V:[LIT](#)) (FSE:OAY2) (WKN:A0RK7E) (OTC:PNXLF) (“**Argentina Lithium**” or the “**Company**”) announces that at the Special and Annual General Meeting held on November 2, 2016, the

shareholders approved a special resolution deleting the existing Articles of the Company in their entirety and replacing them with a new form of Articles, as described in the Company’s information circular dated September 28, 2016.

The Articles were amended to, among other things, require advance notice to the Company (the “Advance Notice Provision”) in circumstances where nominations of persons for election to the Board of Directors are made by shareholders of the Company other than pursuant to: (i) a requisition of a meeting made pursuant to the provisions of the *Business Corporations Act* (British Columbia) (the “Act”); or (ii) a shareholder proposal made pursuant to the provisions of the Act.

Among other things, the Advance Notice Provision fixes a deadline by which holders of record of common shares of the Company must submit director nominations to the Company prior to any annual or special meeting of shareholders and sets forth the information that a shareholder must include in the notice to the Company for the notice to be in proper written form.

In the case of an annual meeting of shareholders, notice to the Company must be made not less than 30 nor more than 65 days prior to the date of the annual meeting; provided, however, that, in the event that the annual meeting is to be held on a date that is less than 50 days after the date on which the first public announcement of the date of the annual meeting was made, notice may be made not later than the close of business on the 10th day following such public announcement.

In the case of a special meeting of shareholders (which is not also an annual meeting), notice to the Company must be made not later than the close of business on the 15th day following the day on which the first public announcement of the date of the special meeting was made.

About Argentina Lithium

Argentina Lithium & Energy Corp is focused on acquiring high quality lithium projects in Argentina, and advancing them towards production in order to meet the growing global demand from the battery sector. The management group has a long history of success in the resource sector of Argentina, and has assembled a first rate team of experts to acquire and advance the best lithium properties in the world renowned "Lithium Triangle". The Company is a member of the Grosso Group, a resource management group that has pioneered exploration in Argentina since 1993.
