About Austin Gold Corp.

Austin is a gold exploration company focused on gold targets and making district-scale gold discoveries in the southwestern United States.

Austin has two projects in Nevada. The Kelly Creek Project is located on the Battle Mountain-Eureka (Cortez) gold trend in Humboldt County and the Lone Mountain Project is on the Independence-Jerritt Canyon gold trend in Elko County. Collectively, these Nevada properties comprise approximately 78.9 km² of unpatented lode mining claims and private property. In Oregon, the Stockade Mountain Project consists of approximately 21.5 km² of unpatented mining claims situated in a geological environment that appears the same as the nearby Grassy Mountain Deposit that is being permitted for underground mining.
