

Bald Eagle Gold Corp. Announces Trading on the OTCQB Venture Market and DTC Eligibility of Its Common Shares in the United States

written by Raj Shah | June 28, 2022

June 28, 2022 ([Source](#)) – Bald Eagle Gold Corp. (“**Bald Eagle**” or the “**Company**”) (**TSXV:BIG**) (OTCQB:BADEF), is pleased to announce that it has qualified for trading on the OTCQB Venture Market (the “OTCQB”) and its common shares are eligible for electronic clearing and settlement through The Depository Trust Company (“DTC”) in the United States. The Company’s common shares commenced trading today on the OTCQB under the symbol “BADEF”. Bald Eagle’s common shares will continue to trade on the TSX Venture Exchange under the symbol “BIG”.

DTC is a subsidiary of the Depository Trust & Clearing Corporation, a United States company that manages electronic clearing and settlement for publicly traded companies. Securities that are eligible to be electronically cleared and settled through the DTC are considered to be “DTC eligible”.

DTC eligibility is expected to simplify the process of trading and transferring the Common Shares and to enhance the liquidity of the Common Shares in the United States because of the accelerated settlement period and the expected reduction in costs for investors and brokers, enabling the Company’s common shares to be traded over a wider selection of brokerage firms.

“Listing Bald Eagle on the OTCQB is a first step to provide

easier access and trading capability in our shares for both institutional and retail investors in the United States. Trading on OTCQB will further contribute to our strategy to continue enhancing share liquidity and broaden the reach and awareness of our corporate branding. The Company's asset focus is in the United States and the listing complimentary to ultimately drive value for our shareholders" stated Darren Collins, Chief Financial Officer and Director of the Company.

The OTCQB offers investors transparent trading in entrepreneurial and development stage U.S. and international companies. To be eligible, companies must be current in their reporting and undergo an annual verification and management certification process. The OTCQB quality standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors. Investors can find real-time level 2 quotes and market information at: <https://www.otcmarkets.com/stock/BADEF/overview>.
