Coniagas Grants Stock Options

written by Raj Shah | November 7, 2025

November 7, 2025 (Source) – Coniagas Battery Metals Inc. (TSXV: COS) ("Coniagas" or the "Company"), announces that it has granted stock options to certain directors, officers and consultants to purchase an 1,300,000 common shares in the capital of the Company. The stock options are exercisable for a term of three years with an exercise price of $0.10 per share. All stock options are granted in accordance with the terms of the Company's Stock Option Plan and the policies of the TSX Venture Exchange and exercisable immediately.

About Coniagas Battery Metals Inc.

Coniagas Battery Metals Inc. is a Canadian junior mining company focused on nickel, copper and cobalt and platinum group metals in Québec. Coniagas' strategy is to create value for shareholders through the development of its mineral properties, with the intention to develop Coniagas into a critical metals supplier to the electric vehicle (EV) market.

At its 100% owned Graal project near Saguenay, Quebec, Coniagas has conducted successful exploration involving geophysics as well as shallow drilling that hit mineralization in almost every hole. It has confirmed an open-pit deposit model at Graal along a 6 km strike length of high-grade nickel and copper with cobalt, platinum and palladium byproducts. The Company plans in the near-term to conduct additional drilling leading to the production of a Ni 43-101 resource report, metallurgical testing and consultations with First Nations. The Graal project and immediate work plan are outlined in detail in the "NI 43-101 Technical Report Graal Nickel & Copper Project, Saguenay-Lac-St-Jean, Quebec, Canada" dated January 17, 2024. The report is available along with other information at the Company's website
