

# **CVMR® Corporation, Finatrades of RAMINVEST Holding Announce Their Strategic Partnership to Mine, Refine, Finance, and Monetize Various Mineral Assets and Launch the Largest Critical Metals Conglomerate.**

written by Tracy Hughes | July 17, 2025

July 17, 2025 ([Source](#)) – CVMR® Corporation, a global mining and metal refining corporation, and FINATRADES, a digital finance and trading platform, are delighted to announce the signing of a Memorandum of Understanding in Toronto. This partnership aims to monetize metal assets and facilitate the exchange of mineral commodities. This landmark collaboration will leverage the strengths of both organizations in creating and managing secure, traceable, and tradable physical mineral assets and digital representations of refined physical assets. The “Digital Metal Assets” will be integrated into the FINATRADES’ platform, enabling a broad range of financial options including trading, collateralization, lending, and settlement.

CVMR® and FINATRADES collaboration focuses on the monetization and exchange of metal assets, particularly precious metals and critical elements including Rare Earth Elements (REE), high performance metals, and uranium. These assets will be securely managed and refined using CVMR®’s proprietary technologies and monetized through FINATRADES platform. FINATRADES ECOSYSTEM will leverage technology to provide convenient, accessible, and

efficient financial instruments for the conglomerate and the joint ventures with CVMR® to manage finances, capital investment, and acquisition of resources.

Key Highlights:

### **1: Partnership Goals:**

- Physical and proven metal assets will be managed as unique assets identified in a cryptographic form for secure, traceable, and tradable digital finance.
- Focus on emerging markets, especially Africa.
- Enable institutional and sovereign participation in metal-backed digital finance.
- Coordinate global marketing, supply chains and mineral assets sales.

### **▪ 2: Roles:**

CVMR®: Handles sourcing of the minerals, mining, refining, certification, and storage of physical metals.

- FINATRADES: Provides the platform for trading, monetization, develops financial instruments and settlement of identified assets.

### **3: Joint Working Group:**

- Established to oversee compliance, product development, commercialization, and risk management.

## **About CVMR® Corporation**

CVMR® is a privately held corporation with its head office located in Toronto and operations in 22 countries. It provides a

supply of critical mineral resources for refining in Canada, the United States, Europe and at various mining sites in Africa, assures direct involvement of mine owners with refining of resources, integrates management of refinery operations with metal markets supply and inventory control of finished products with accountability for industrial market commitments. CVMR® refines metals, and intermediates, mostly in nickel, iron, cobalt, PGE, copper, gold, silver, tantalum, niobium, molybdenum, vanadium, scandium, Rare Earth Elements, and manufactures high value metal products. Over the past 40 years, it has developed a unique series of processes and technologies for refining all Transition Metals from which it manufactures various metal powders, nano-powders, complex net shapes and products. CVMR®'s refining/manufacturing process is capable of producing metal products with exceptional high purity and unique performance characteristics.
