

Datable Technology Receives DTC Eligibility Approval

written by Raj Shah | September 9, 2021

September 9, 2021 ([Source](#)) – Datable Technology Corp. (TSXV: [DAC](#)) (OTCQB: TTMZF) (the “Company” or “Datable”), a software company that provides a marketing automation platform called **PLATFORM³** to global consumer brands, is pleased to announce that its common shares are now eligible for settlement through the Depository Trust Company (“DTC”), a subsidiary of the Depository Trust & Clearing Corp. that manages the electronic clearing and settlement of publicly-traded companies in the United States.

Datable’s common shares are now fully DTC eligible and will continue to trade in the United States under the ticker symbol “TTMZF” on the OTCQB Venture Market. Through an electronic method of clearing securities, DTC eligibility reduces costs and accelerates the settlement process for investors and brokers allowing the Company’s common shares to be traded over a much wider selection of brokerage firms by coming into compliance with their requirements.

“DTC eligibility supports our ongoing efforts to present the Company to a broader audience of potential investors,” said Rob Craig, CEO of Datable. “Our common shares are now more accessible to retail and institutional investors in one of the largest capital markets in the world.”

About Datable Technology Corporation

Datable has developed a proprietary, mobile-based consumer marketing platform – **PLATFORM³** – that is sold to global Consumer

Packaged Goods (CPG) companies and consumer brands. **PLATFORM³** is delivered as a subscription service (Software as a Service model) and used by CPG companies to engage consumers, reward purchases and collect valuable consumer data. **PLATFORM³** incorporates proprietary technology to monetize the consumer data, including demographics and purchasing behaviour, by sending consumers targeted offers by email and text messages.
