DMG Blockchain Solutions Announces Exploration of Digital Asset Treasury Strategy

written by Raj Shah | July 22, 2025
July 22, 2025 (Source) — DMG Blockchain Solutions Inc. (TSX-V: DMGI) (OTCQB: DMGGF) (FRANKFURT: 6AX) ("DMG" or the "Company"), a vertically integrated blockchain and data center technology company, today announces that it has engaged a consultant to assess and help implement institutional-grade treasury management within the regulated custody platform operated by its wholly owned subsidiary, Systemic Trust Company ("STC"). This platform would serve both DMG and STC's clients by offering custody services. DMG is also assessing additional capabilities intended to further enhance treasury value.

Digital asset treasuries have recently gained prominence for their ability to generate net asset value (NAV) premiums through active management, in contrast to exchange-traded funds (ETFs), which typically trade in line with the value of their underlying assets. DMG's digital asset portfolio is currently composed solely of bitcoin, although the Company is considering the inclusion of other digital assets. To support the platform, DMG may utilize its existing bitcoin, add its proceeds from Bitcoin mining and/or raise capital to expand its treasury. As of the date of this press release, DMG is ranked #54 among Top Public Bitcoin Treasury Companies on BitcoinTreasuries.net.

DMG's CEO, Sheldon Bennett, commented, "Investors are moving beyond ETFs and HODLing. They want strategies that actively build digital asset value. At DMG, we control the entire stack —

secure computing infrastructure, Bitcoin mining operations and our regulated custody platform. This integration delivers a solution that few can match. By leveraging our end-to-end platform, we can facilitate the creation and expansion of digital asset portfolios for ourselves and our clients."

About Systemic Trust Company Ltd.

Systemic Trust is fully regulated under the Alberta Loans and Trust Corporations Act, ensuring client digital assets are managed with the highest standards of compliance and security. Systemic Trust combines regulatory compliance, cutting-edge technology and robust insurance coverage to deliver the ultimate digital asset custody experience.

About DMG Blockchain Solutions Inc.

DMG is a publicly traded and vertically integrated blockchain and data center technology company that manages, operates and develops end-to-end digital solutions to monetize the digital asset and artificial intelligence compute ecosystems. Systemic Trust Company, a wholly owned subsidiary of DMG, is an integral component of DMG's carbon-neutral Bitcoin ecosystem, which enables financial institutions to move Bitcoin in a sustainable and regulatory-compliant manner.

Cautionary Note Regarding Forward-Looking Information

This news release contains forward-looking information or statements based on current expectations. Forward-looking statements contained in this news release include statements regarding DMG's strategies and plans, assessing and implementing institutional-grade treasury management features within the regulated custody platform operated by its wholly owned subsidiary, Systemic Trust Company, the consideration of the inclusion of other digital assets in treasury management, securing new clients for the Systemic Trust digital asset custody subsidiary, the opportunity and plans to monetize bitcoin transactions and provide additional products and services to customers and users, the continued investment in Bitcoin network software infrastructure and applications, the expected allocation of capital, developing and executing on the Company's products and services, increasing self-mining, increasing hashrate, efforts to improve the operation of its mining fleet, the launch of products and services, events,

courses of action, and the potential of the Company's technology and operations, among others, are all forward-looking information.

Future changes in the Bitcoin network-wide mining difficulty rate or Bitcoin hashrate may materially affect the future performance of DMG's production of bitcoin, and future operating results could also be materially affected by the price of bitcoin and an increase in hashrate mining difficulty.

Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations, or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, market and other conditions, volatility in the trading price of the common shares of the Company, business, economic and capital market conditions; the ability to manage operating expenses, which may adversely affect the Company's financial condition; the ability to remain competitive as other better financed competitors and release competitive products; regulatory develop uncertainties; access to equipment; market conditions and the demand and pricing for products; the demand and pricing of bitcoin; the demand and pricing of AI data centers and usage; security threats, including a loss/theft of DMG's bitcoin; DMG's relationships with its customers, distributors and business partners; the inability to add more power to DMG's facilities;

DMG's ability to successfully define, design and release new products in a timely manner that meet customers' needs; the ability to attract, retain and motivate qualified personnel; competition in the industry; the impact of technology changes on the products and industry; failure to develop new and innovative products; the ability to successfully maintain and enforce our intellectual property rights and defend third-party claims of infringement of their intellectual property rights; the impact of intellectual property litigation that could materially and adversely affect the business; the ability to manage working capital; and the dependence on key personnel. DMG may not actually achieve its plans, projections, or expectations. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the demand for its products, the ability to successfully develop software, that there will be no regulation or law that will prevent the Company from operating its business, anticipated costs, the ability to secure sufficient capital to complete its business plans, the ability to achieve goals and the price of bitcoin. Given these risks, uncertainties, and assumptions, you should not place undue reliance on these forward-looking statements. The securities of DMG are considered highly speculative due to the nature of DMG's business. For further information concerning these and other risks and uncertainties, refer to the Company's filings on www.sedarplus.ca. In addition, DMG's past financial performance may not be a reliable indicator of future performance.

Factors that could cause actual results to differ materially from those in forward-looking statements include, failure to obtain regulatory approval, the continued availability of capital and financing, equipment and/or infrastructure failures, lack of supply of equipment, power and infrastructure, failure

to obtain any permits required to operate the business, the impact of technology changes on the industry, the impact of viruses and diseases on the Company's ability to operate, secure equipment, and hire personnel, competition, security threats including stolen bitcoin from DMG or its customers, consumer sentiment towards DMG's products, services and blockchain and AI technology generally, failure to develop new and innovative products, litigation, adverse weather or climate events, increase in operating costs, increase in equipment and labor costs, equipment failures, decrease in the price of Bitcoin, failure of counterparties to perform their contractual obligations, government regulations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information. The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, the Company undertakes no obligation to comment on the expectations of or statements made by third parties in respect of the matters discussed above.
