

DMG Blockchain Solutions Announces Preliminary May Operational Results

written by Raj Shah | June 3, 2025

June 3, 2025 ([Source](#)) – DMG Blockchain Solutions Inc. (TSX-V: DMGI) (OTCQB: DMGGF) (FRANKFURT: 6AX) (“DMG” or the “Company”), a vertically integrated blockchain and data center technology company, today announces its preliminary operational results for May 2025:

- **Bitcoin mined:** 31 BTC (vs 30 BTC in Apr 2025)
- **Hashrate:** 1.89 EH/s (vs 1.93 EH/s in Apr 2025)
- **Bitcoin balance:** 350 BTC (vs 351 BTC in Apr 2025)

During May 2025, DMG’s realized hashrate was 1.89 EH/s, approximately flat compared to April’s reported 1.93 EH/s. The Company reached its 2.1 EH/s hashrate target in early May, supported by the deployment of additional Bitmain S21+ Hydro miners. Throughout May, DMG reduced the hashrate of a portion of its fleet—particularly its Bitmain T21 miners—in response to rising ambient temperatures. The Company also continued to experience hydro infrastructure challenges, although its hydro-cooled miners continued to perform well.

DMG’s bitcoin balance of 350 BTC at the end of May was similar to the prior month end. The Company sold bitcoin during the month to fund operating expenses and further reduce its loan balance with Sygnum Bank, in line with prior guidance.

DMG’s CEO, Sheldon Bennett, commented, “In May, we mined 31 bitcoin on a hashrate of 1.89 EH/s, even as we incurred seasonal

headwinds and infrastructure-related challenges. Our bitcoin balance remained stable as we continued to allocate proceeds toward paying operational costs and reducing debt. While we strive to remain competitive in Bitcoin mining to ensure sustained cash generation, we continue to be encouraged by our progress to secure colocation and off-take agreements for artificial intelligence infrastructure as well as new clients for our Systemic Trust digital asset custody subsidiary.”

About DMG Blockchain Solutions Inc.

DMG is a publicly traded and vertically integrated blockchain and data center technology company that manages, operates and develops end-to-end digital solutions to monetize the digital asset and artificial intelligence compute ecosystems. Systemic Trust Company, a wholly owned subsidiary of DMG, is an integral component of DMG’s carbon-neutral Bitcoin ecosystem, which enables financial institutions to move Bitcoin in a sustainable and regulatory-compliant manner.

Cautionary Note Regarding Forward-Looking Information

This news release contains forward-looking information or statements based on current expectations. Forward-looking statements contained in this news release include statements regarding DMG's strategies and plans, executing on DMG's broader strategy to shift its data center capacity towards AI, securing high-value AI off-take and colocation agreements, securing new clients for the Systemic Trust digital asset custody subsidiary, the opportunity and plans to monetize bitcoin transactions and provide additional products and services to customers and users, the continued investment in Bitcoin network software infrastructure and applications, the expected allocation of capital, developing and executing on the Company's products and services, increasing self-mining, increasing hashrate, efforts to improve the operation of its mining fleet, the potential trimming of self-mining due to higher ambient temperature environment, the launch of products and services, events, courses of action, and the potential of the Company's technology and operations, among others, are all forward-looking information.

Future changes in the Bitcoin network-wide mining difficulty rate or Bitcoin hashrate may materially affect the future

performance of DMG's production of bitcoin, and future operating results could also be materially affected by the price of bitcoin and an increase in hashrate mining difficulty.

Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations, or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, market and other conditions, volatility in the trading price of the common shares of the Company, business, economic and capital market conditions; the ability to manage operating expenses, which may adversely affect the Company's financial condition; the ability to remain competitive as other better financed competitors develop and release competitive products; regulatory uncertainties; access to equipment; market conditions and the demand and pricing for products; the demand and pricing of bitcoin; the demand and pricing of AI data centers and usage; security threats, including a loss/theft of DMG's bitcoin; DMG's relationships with its customers, distributors and business partners; the inability to add more power to DMG's facilities; DMG's ability to successfully define, design and release new products in a timely manner that meet customers' needs; the ability to attract, retain and motivate qualified personnel; competition in the industry; the impact of technology changes on the products and industry; failure to develop new and innovative

products; the ability to successfully maintain and enforce our intellectual property rights and defend third-party claims of infringement of their intellectual property rights; the impact of intellectual property litigation that could materially and adversely affect the business; the ability to manage working capital; and the dependence on key personnel. DMG may not actually achieve its plans, projections, or expectations. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the demand for its products, the ability to successfully develop software, that there will be no regulation or law that will prevent the Company from operating its business, anticipated costs, the ability to secure sufficient capital to complete its business plans, the ability to achieve goals and the price of bitcoin. Given these risks, uncertainties, and assumptions, you should not place undue reliance on these forward-looking statements. The securities of DMG are considered highly speculative due to the nature of DMG's business. For further information concerning these and other risks and uncertainties, refer to the Company's filings on www.sedarplus.ca. In addition, DMG's past financial performance may not be a reliable indicator of future performance.

Factors that could cause actual results to differ materially from those in forward-looking statements include, failure to obtain regulatory approval, the continued availability of capital and financing, equipment failures, lack of supply of equipment, power and infrastructure, failure to obtain any permits required to operate the business, the impact of technology changes on the industry, the impact of viruses and diseases on the Company's ability to operate, secure equipment, and hire personnel, competition, security threats including stolen bitcoin from DMG or its customers, consumer sentiment

towards DMG's products, services and blockchain and AI technology generally, failure to develop new and innovative products, litigation, adverse weather or climate events, increase in operating costs, increase in equipment and labor costs, equipment failures, decrease in the price of Bitcoin, failure of counterparties to perform their contractual obligations, government regulations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information. The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, the Company undertakes no obligation to comment on the expectations of or statements made by third parties in respect of the matters discussed above.
