

# DMG Blockchain Solutions Announces Preliminary September Operational Results

written by Raj Shah | October 7, 2025

October 7, 2025 ([Source](#)) – DMG Blockchain Solutions Inc. (TSX-V: DMGI) (OTCQB: DMGGF) (FRANKFURT: 6AX) (“DMG” or the “Company”), a vertically integrated blockchain and data center technology company, today announces its preliminary operational results for September 2025:

- **Bitcoin balance:** 342 BTC (vs 324 BTC in August 2025)
- **Bitcoin mined:** 23 BTC (vs 23 BTC in August 2025)
- **Hashrate:** 1.65 EH/s (vs 1.53 EH/s in August 2025)

In September 2025, DMG’s hashrate was 1.65 EH/s, compared to 1.53 EH/s in August, which is back in line with July results as the Company operated the full month. The Company’s hydro miners encountered downtime due to recurring contamination issues, as our operations team adjusted its water-glycol mix to support the upcoming winter months, and hence the hydro equipment did not operate consistently at its rated 0.4 EH/s.

At the end of September, DMG held 342 BTC, as it utilized its debt facility to limit its bitcoin liquidations to rebuild its bitcoin balance. Regarding implementation of a formal treasury policy, in the near term, DMG is deferring any changes to its current policy, based on which it considers bitcoin as part of its working capital, as the Company is pursuing the potential acquisition of additional capital assets to enable its artificial intelligence (AI) infrastructure build-outs in a non-dilutive manner. Even as the Company’s share price has

materially increased in the past month, management believes that an equity raise at current levels would not be in the best interest of shareholders.

Sheldon Bennett, DMG's CEO, commented, "We remain optimistic about our opportunities in AI and digital asset financial services, areas for which we are focused on building as the pillars of Company growth going forward. For AI, we continue to focus on both Canadian government and military sector opportunities as well the enterprise market. Additionally, with respect to our relationship with the Malahat First Nation, we are working towards definitive agreements that support both AI and the power generation to energize that AI. Finally, we are encouraged by the longer-term opportunity for our digital asset custody business, for which we expect it to ramp up revenue in the coming calendar year."

#### **About DMG Blockchain Solutions Inc.**

DMG is a publicly traded and vertically integrated blockchain and data center technology company that manages, operates and develops end-to-end digital solutions to monetize the digital asset and artificial intelligence compute ecosystems. Systemic Trust Company, a wholly owned subsidiary of DMG, is an integral component of DMG's carbon-neutral Bitcoin ecosystem, which enables financial institutions to move Bitcoin in a sustainable and regulatory-compliant manner.

### **Cautionary Note Regarding Forward-Looking Information**

This news release contains forward-looking information or statements based on current expectations. Forward-looking statements contained in this news release include statements regarding DMG's strategies and plans, increasing the Company's bitcoin balance and limit further reductions in its debt, explore building a broader digital asset portfolio, pursuing the potential acquisition of additional capital assets to enable its artificial intelligence (AI) infrastructure build-outs in a non-dilutive manner, working towards definitive agreements with the Malahat Nation that support both AI and the power generation to energize that AI, the expected ramp up revenue in the coming calendar year with the digital asset custody business, the opportunity and plans to monetize bitcoin transactions and provide additional products and services to customers and users, the continued investment in Bitcoin network software infrastructure and applications, the expected allocation of

capital, developing and executing on the Company's products and services, increasing self-mining, increasing hashrate, efforts to improve the operation of its mining fleet, the launch of products and services, events, courses of action, and the potential of the Company's technology and operations, among others, are all forward-looking information.

Future changes in the Bitcoin network-wide mining difficulty rate or Bitcoin hashrate may materially affect the future performance of DMG's production of bitcoin, and future operating results could also be materially affected by the price of bitcoin and an increase in hashrate mining difficulty.

Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations, or intentions regarding the future. Such information can generally be identified by the use of forwarding-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company, including but not limited to, market and other conditions, volatility in the trading price of the common shares of the Company, business, economic and capital market conditions; the ability to manage operating expenses, which may adversely affect the Company's financial condition; the ability to remain competitive as other better financed competitors develop and release competitive products; regulatory uncertainties; access to equipment; market conditions and the demand and pricing for products; the demand and pricing of bitcoin; the demand and pricing of AI data centers and usage;

security threats, including a loss/theft of DMG's bitcoin; DMG's relationships with its customers, distributors and business partners; the inability to add more power to DMG's facilities; DMG's ability to successfully define, design and release new products in a timely manner that meet customers' needs; the ability to attract, retain and motivate qualified personnel; competition in the industry; the impact of technology changes on the products and industry; failure to develop new and innovative products; the ability to successfully maintain and enforce our intellectual property rights and defend third-party claims of infringement of their intellectual property rights; the impact of intellectual property litigation that could materially and adversely affect the business; the ability to manage working capital; and the dependence on key personnel. DMG may not actually achieve its plans, projections, or expectations. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the demand for its products, the ability to successfully develop software, that there will be no regulation or law that will prevent the Company from operating its business, anticipated costs, the ability to secure sufficient capital to complete its business plans, the ability to achieve goals and the price of bitcoin. Given these risks, uncertainties, and assumptions, you should not place undue reliance on these forward-looking statements. The securities of DMG are considered highly speculative due to the nature of DMG's business. For further information concerning these and other risks and uncertainties, refer to the Company's filings on [www.sedarplus.ca](http://www.sedarplus.ca). In addition, DMG's past financial performance may not be a reliable indicator of future performance.

Factors that could cause actual results to differ materially from those in forward-looking statements include, failure to

obtain regulatory approval, the continued availability of capital and financing, equipment and/or infrastructure failures, lack of supply of equipment, power and infrastructure, failure to obtain any permits required to operate the business, the impact of technology changes on the industry, the impact of viruses and diseases on the Company's ability to operate, secure equipment, and hire personnel, competition, security threats including stolen bitcoin from DMG or its customers, consumer sentiment towards DMG's products, services and blockchain and AI technology generally, failure to develop new and innovative products, litigation, adverse weather or climate events, increase in operating costs, increase in equipment and labor costs, equipment failures, decrease in the price of Bitcoin, failure of counterparties to perform their contractual obligations, government regulations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this news release are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information. The forward-looking statements contained in this news release are made as of the date of this news release. Except as required by law, the Company disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Additionally, the Company undertakes no obligation to comment on the expectations of or statements made by third parties in respect of the matters discussed above.
