

# dynaCERT Appoints Steven Christou as Global Product Support Manager

written by Raj Shah | May 27, 2019

May 27, 2019 ([Source](#)) – *dynaCERT* Inc. (TSX VENTURE: DYA) (OTCQB: DYFSF) (FRA: DMJ) (“*dynaCERT*” or the “Company”) is pleased to announce that it has appointed Steven Christou as Global Product Support Manager to provide effective product support to

both the Company’s clients and its dealers, internationally. Mr. Christou will be heading *dynaCERT*’s Field Service Technician programme and will act as Technical Training Instructor. Mr. Christou will be training both DYA staff and clients’ technicians on the installation of HydraGEN™ units, scheduling first-order installations and handling queries from customers.

Mr. Christou is certified as a diesel mechanic, has years of experience in the diesel trucking industry and holds some of the highest credentials and licences as a technical expert in numerous diesel applications including for CAT and Mercedes Benz. He is a highly regarded professor at Conestoga College where he delivers a topmost curriculum at the level of Ontario ministry standards.

Mr. Christou spent 5 years at Liebherr Canada as the Technical Training Manager and Technical Trainer and developed and implemented a technical training program for staff members across Canada. He also provided technical assistance to customers and internal technicians and performed customer training.

Mr. Christou also has a track record as Diesel Engine Technician, Field Service Technician and Technical Training Instructor for Toromont Caterpillar where he was responsible for diagnosis and repair of diesel on highway truck engines, diagnosis of marine and generator engines in the field, engine overhaul, and later moved into a technical training role, providing technical training to technicians on electrical diagnosis and repair.

Mr. Steven Christou, *dynaCERT*'s new Global Product Support Manager stated, "This opportunity to apply my decades of technical experience and training expertise to support *dynaCERT*'s clients and the HydraGEN™ Technology is irresistible. I look forward to my new vocation with the Company to foster the application of a revolutionary set of products that will save fuel and pollution around the world."

Robert Maier, Director and COO of *dynaCERT* said, "With our global footprint, building the team of experts, such as Steven Christou, professionals that will advance the HydraGEN™ Technology and create in depth market penetration, is crucial. As part of our strategy of hiring and co-opting the best experts possible, I am extremely pleased to welcome Steven to supplement *dynaCERT*'s growing demand for quality and reliable customer service."

#### **About *dynaCERT* Inc.**

*dynaCERT* Inc. manufactures, distributes, and installs Carbon Emission Reduction Technology for use with internal combustion engines. As part of the growing global hydrogen economy, our patent-pending technology creates hydrogen and oxygen on-demand through electrolysis and supplies these through the air intake to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. Our technology is designed for use with all types and sizes of diesel engines used in on-road vehicles,

reefer trailers, off-road construction, power generation, mining and forestry equipment, marine vessels and railroad locomotives. Website: [www.dynaCERT.com](http://www.dynaCERT.com)

## **READER ADVISORY**

*Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. In particular, forward-looking information in this press release includes, but is not limited to the potential expansion into new markets, industries and segments, such as diesel- powered use of any the dynaCERT products and sales. Although we believe that the expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance of achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.*

*Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward- looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: uncertainty as to whether our strategies and business plans will yield the expected benefits; availability and cost of capital;*

the ability to identify and develop and achieve commercial success for new products and technologies; the level of expenditures necessary to maintain and improve the quality of products and services; changes in technology and changes in laws and regulations; the uncertainty of the emerging hydrogen economy; including the hydrogen economy moving at a pace not anticipated; our ability to secure and maintain strategic relationships and distribution agreements; and the other risk factors disclosed under our profile on SEDAR at [www.sedar.com](http://www.sedar.com). Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

**Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX VentureExchange) accepts responsibility for the adequacy or accuracy of the release.**
