dynaCERT Exhibiting at Truck World Show

written by Raj Shah | April 22, 2022
April 22, 2022 (Source) – *dynaCERT* Inc. (TSX: DYA) (OTCQX: DYFSF) (FRA: DMJ) ("*dynaCERT*" or the "Company") is pleased to announce that it is an exhibitor at the Truck World show in Toronto, from April 21, 2022 until Saturday, April 23, 2022.

Truck World is a trade & industry event. The show is a meeting place for Canada's trucking industry with everything trucking: equipment, innovations, connections, solutions, featuring over 500 exhibitors and new products showcase including *dynaCERT's* flagship HydraGEN™ line of global solutions to reduce pollution.

dynaCERT is featuring several very attractive options at Truck World this year, namely:

- A 10% discount off the regular Manufacturer's Suggested Retail Price (MSRP) of our HydraGEN™ Units; and,
- A 100% free Installation, with no travel costs, within the Greater Toronto Area, a value of $800 per Unit;
- Discounted rental possibilities for all truckers who do not wish to purchase HydraGEN™ Units but prefer to rent such Units.

The Truck World show is at the International Centre, 6900 Airport Road, Mississauga, Ontario (Canada). *dynaCERT*'s senior sales and marketing people and products can be found at Booth 2604 in Hall 2.

Enrico Schlaepfer, Vice President, Global Sales of *dynaCERT*, stated, "Our team is very pleased to meet the numerous trucking

people and logistic companies from all across Canada at the Truck World show and introduce them to our updated line of products. Our HydraGEN™ line of products is designed to reduce fuel consumption and reduce pollution on trucks of all sizes using diesel fuel."

Jim Payne, President & CEO of *dynaCERT*, stated, "The 2022 Truck World show represents an opportunity for *dynaCERT* to feature our HydraGEN™ Units live and in person with a large audience of potential customers and dealers. The show is a welcome event for *dynaCERT* after so many months of COVID restrictions. We are proud to be an exhibitor at this world event in the trucking industry to feature our global solution to reduce pollution. With fuel prices soaring, people are looking for ways to reduce costs while understanding today's needs to reduce emissions, so our compelling propositions are attractive to trucking operators world wide."

More information about the show is available here: https://www.truckworld.ca/

About *dynaCERT* Inc.

dynaCERT Inc. manufactures and distributes Carbon Emission Reduction Technology for use with internal combustion engines. As part of the growing global hydrogen economy, our patented technology creates hydrogen and oxygen on-demand through a unique electrolysis system and supplies these gases through the air intake to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. Our technology is designed for use with many types and sizes of diesel engines used in on-road vehicles, reefer trailers, off-road construction, power generation, mining and forestry equipment, marine vessels and railroad locomotives. READER ADVISORY

Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. In particular, forward-looking information in this press release includes, but is not limited to completion of the Offering, satisfaction of TSX listing conditions and regulatory approvals. Although we believe that the expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance of achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: uncertainty as to whether our strategies and business plans will yield the expected benefits; availability and cost of capital; the ability to identify and develop and achieve commercial success for new products and technologies; the level of expenditures necessary to maintain and improve the quality of products and services; changes in technology and changes in laws and regulations; the uncertainty of the emerging hydrogen

economy; including the hydrogen economy moving at a pace not anticipated; our ability to secure and maintain strategic relationships and distribution agreements; and the other risk factors disclosed under our profile on SEDAR at www.sedar.com. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither the Toronto Stock Exchange nor its Regulation Services Provider (as that term is defined in the policies of the Toronto Stock Exchange) accepts responsibility for the adequacy or accuracy of the release.
