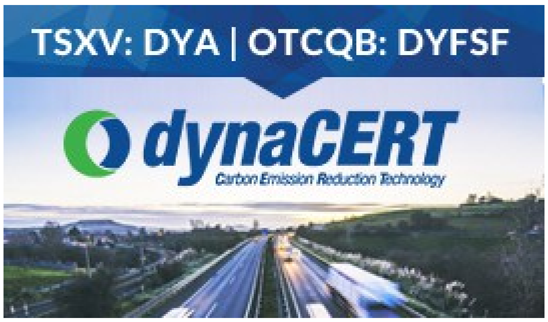
dynaCERT Expands Advisory Board with Dr. Jörg Mosolf of Europe

written by Raj Shah | November 20, 2019



November 20, 2019 (Source) – *dynaCERT* Inc. (TSX VENTURE: DYA) (OTCQB: DYFSF) (FRA: DMJ) ("*dynaCERT*" or the "Company") is pleased to announce that Dr. Jörg Mosolf, CEO of the Mosolf Group ("MOSOLF") has joined its Advisory Board.

Dr. Jörg Mosolf

Dr. Jörg Mosolf (born 1956) is a certified freight forwarding agent and can look back on over 30 years of experience in the logistics industry. After completing his MBA in St. Gallen, he did his doctorate at the University of Prague. He gathered professional experience in London and within various branches of the MOSOLF Group. Since 2002, he has been working at MOSOLF headquarters in Kirchheim. His responsibilities as a managing partner include company strategy, marketing and business communication, as well as sales.

In May 2017, Dr. Jörg Mosolf was awarded the Golden Badge of Honour of the German Logistics Association (BVL) for his great personal honorary commitment to the business development of the German Foreign Trade and Commerce Academy (DAV) and the establishment of the DAV Advisory Board.

Dr. Jörg Mosolf is also a member of the executive board of the German Transport Forum (DVF). Moreover, he chairs the DVF's steering committee on freight traffic and logistics.

Dr. Jörg Mosolf, Chief Executive Officer of the MOSOLF Group, stated, “It is a great honor to be a part of the *dynaCERT* team to establish this fascinating technology for the world market. Especially in Europe, we need the *dynaCERT* technology to meet our ambitious targets for the Paris Climate protection agreement.”

Jim Payne, President and CEO of *dynaCERT,* stated, “Strengthening our Advisory Board with such an important and qualified professional as Dr. Jörg Mosolf, at a time when *dynaCERT* is expanding quickly in Europe, is a very welcome move by *dynaCERT* ’s board of directors, officers and shareholders as well as our other fellow members of the Advisory Board. Dr. Mosolf has been instrumental in introducing *dynaCERT’s* HydraGENä products to governments and continues to be dedicated to opening up important relationships in Europe and throughout the world with potential new institutional shareholders, OEM’s, trucking and vehicle fleets and many other stakeholders in making Europe more green.”

Upcoming Events in Europe

dynaCERT will be attending events and meetings with institutional investors and analysts in Europe in the coming weeks.

German Equity Forum (Deutsche Eigenkapitalforum) in Frankfurt, November 25 to 27, 2019 by Deutsche Börse AG: “Entrepreneurs meet investors” – promoting this slogan, Deutsche Börse AG has organized this event since 1996. Deutsches Eigenkapitalforum has been evolved to one of the most important and significant capital market events on the issue of corporate finance in Europe. Last year, more than 4,000 1-on-1 meetings and about 200 analysts’ conferences were held.

Munich Capital Markets Conference (Münchner Kapitalmarkt Konferenz), December 10 & 11, 2019 by GBC AG: GBC AG has been organizing capital market conferences for 15 years. German listed companies use the conference to address investors directly. The MKK, the Munich Capital Market Conference, takes place twice a year and is the largest investor conference for small and mid caps in Southern Germany.

Also, Mr. Jim Payne will be presenting *dynaCERT* formally to participants at such events and hosting one-on-one institutional investor meetings scheduled for three days in Frankfurt and two days in Munich.

About *dynaCERT* Inc.

dynaCERT Inc. manufactures and distributes Carbon Emission Reduction Technology for use with internal combustion engines. As part of the growing global hydrogen economy, our patented technology creates hydrogen and oxygen on-demand through a unique electrolysis system and supplies these gases through the air intake to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. Our technology is designed for use with many types and sizes of diesel engines used in on-road vehicles, reefer trailers, off-road construction, power generation, mining and forestry equipment, marine vessels and railroad locomotives.
