

eCobalt Announces Closing of Bought Deal Financing

written by Raj Shah | February 23, 2018

✖ February 23, 2018 ([Source](#)) – **eCobalt Solutions Inc.** (“eCobalt” or “the Company”) (TSX: ECS, OTCQX: ECSIF) is pleased to report the successful closing of the bought deal financing announced on February 13, 2018, including the exercise in full of the underwriters’ over-allotment option. The Company issued a total of 23,000,000 units (the “Units”) at a price of \$1.30 per Unit for gross proceeds of \$29,900,000 (the “Offering”).

Each Unit consists of one common share of the Company and one-half of one common share purchase warrant (each whole common share purchase warrant, a “Warrant”). Each Warrant shall entitle the holder thereof to purchase one common share at an exercise price of C\$1.95 for a period of eighteen (18) months following the closing of the Offering.

The Company intends to use the net proceeds of the Offering for advancing the development of the Company’s Idaho Cobalt Project, supporting pre-construction activities at the mine and mill site in preparation for production, support of engineering for new mine and Cobalt Processing Facility design, and for general working capital purposes.

The Offering was led by TD Securities Inc., and included BMO Capital Markets, Canaccord Genuity Corp. and Eight Capital (the “Underwriters”). The Offering was completed by way of a prospectus supplement and an accompanying short form base shelf prospectus of the Company, in all of the provinces in Canada, other than Quebec, in certain offshore jurisdictions, and in the United States on a private placement basis pursuant to

applicable exemptions under the U.S Securities Act of 1933, as amended.

The Offered Securities have not been and will not be registered under the United States Securities Act of 1933, as amended, and they may not be offered or sold in the United States or to a US person unless an exemption from registration is available. This press release does not constitute an offer to sell the Offered Securities in the United States or to US persons.

Cautionary Statement on Forward Looking Statements

This news release contains "forward-looking statements" within the meaning of applicable Canadian securities legislation. Statements in this news release pertaining to expected financings, filings, uses of proceeds or project completion dates are forward-looking statements. These forward-looking statements are based on assumptions and address future events and conditions and are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements. Forward-looking statements are not guarantees of future results, performance or achievement. These

risks, uncertainties and factors include general business, economic, competitive, political, regulatory and social uncertainties; actual results of exploration activities and economic evaluations; fluctuations in currency exchange rates; changes in project parameters; changes in costs, including labour, infrastructure, operating and production costs; future prices of cobalt; variations of mineral grade or recovery rates; operating or technical difficulties in connection with exploration, development or mining activities, including the failure of plant, equipment or processes to operate as anticipated; delays in completion of exploration, development or construction activities; changes in government legislation and regulation; the ability to maintain and renew existing licenses and permits or obtain required licenses and permits in a timely manner; the ability to obtain financing on acceptable terms in a timely manner; contests over title to properties; employee relations and shortages of skilled personnel and contractors; the speculative nature of, and the risks involved in, the exploration, development and mining business.

Such projections are and will inevitably always be dependent on assumptions about future mineral prices and development costs which will be subject to fluctuation due to global and local economic and industry conditions. Further information regarding risks and uncertainties which may cause results to differ from those contained in forward-looking statements is included in filings by the Company with securities regulatory authorities and is available at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ

materially from those anticipated in such statements. Although the Company has disclosed that the ICP remains the sole, near term, environmentally permitted, primary cobalt deposit in the United States and offers a unique potential for North American consumers to secure an ethically sourced, environmentally sound supply of clean cobalt products, there is no guarantee that the Company will attain commercial production of such cobalt products for use in the rechargeable battery sector. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not undertake to update any forward-looking statements that are contained herein, except in accordance with applicable securities laws.

The statements contained in this news release in regard to eCobalt that are not purely historical are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including eCobalt's beliefs, expectations, hopes or intentions regarding the future. All forward-looking statements are made as of the date hereof and are based on information available to eCobalt as of such date. It is important to note that actual outcome and the actual results could differ from those in such forward-looking statements. Factors that could cause actual results to differ materially include risks and uncertainties such as technological, legislative, corporate, commodity price and marketplace changes.
