

# Elcora Delivers First Manganese 500 Tons Order

written by InvestorNews | June 20, 2023

June 20, 2023 (Source) – ELCORA ADVANCED MATERIALS CORP. (TSX.V:ERA | Frankfurt:ELM | OTCQB – ECORF), (the “Company” or “Elcora”), is proud to announce that it has successfully delivered its first order for 500 metric tons of 37% + high-quality Manganese from Morocco.

The delivery of this first order marks a significant milestone for Elcora Advanced Materials Corp. The Company has established itself as a reliable and innovative supplier in the advanced materials market, and this latest development highlights its continued commitment to meeting the evolving needs of its clients.

“We are excited to have delivered our first Manganese order from Morocco,” said Troy Grant, CEO of Elcora Advanced Materials Corp. “This achievement further demonstrates our ability to expand our product offering and bring value to our clients.”

Elcora’s advanced materials are used in a variety of applications, including battery technology, aerospace, automotive, and construction. With the addition of Manganese to its product line, Elcora is well-positioned to meet the growing demand for advanced materials in these and other industries.

The Company’s ability to secure and deliver high-quality Manganese ore underscores its commitment to providing its clients with the advanced materials they need to stay ahead of the competition.

About Elcora Advanced Materials Corp.

Elcora was founded in 2011 and has been structured to become a vertically integrated battery material company. Elcora can process, refine, and produce battery related minerals and metals. As part of the vertical integration strategy Elcora has developed a cost-effective process to purify high-quality battery metals and minerals that are commercially scalable. This combination means that Elcora has the tools and resources for vertical integration of the battery minerals and metals industry.
